EX OFFICIO

R. E. HUNGATE, President (1970–1971)

MORRIS F. SHAFFER, Vice-President (1970–1971)

DONALD E. SHAY, Secretary

T. J. CARSKI, Treasurer

Infection and Immunity, a publication of the American Society for Microbiology, 4715 Cordell Ave., Bethesda, Md. 20014, is devoted to the advancement and dissemination of fundamental knowledge concerning 1) pathogenic microorganisms and infection, 2) ecology, epidemiology and host factors, 3) antimicrobial agents and chemotherapy, and 4) immunology. *Infection and Immunity* is published monthly, and the twelve numbers are divided into two volumes per year. The subscription price is $40 (foreign, $41) per year. Single copies are $4.00 (foreign, $4.25). Members of the American Society for Microbiology may receive *Infection and Immunity* as part of their dues. Correspondence relating to reprints, defective copies, availability of back issues, lost or late proofs, disposition of submitted manuscripts, and general editorial matters should be directed to the ASM Publications Office, 4715 Cordell Ave., Bethesda, Md. 20014. Correspondence from ASM members relating to membership dues, member subscriptions, changes of address, incorrect address incorrect journals, etc., should be directed to the American Society for Microbiology, 1913 I St., N.W., Washington, D.C. 20006. Nonmembers of the Society should write to The Williams & Wilkins Co., 428 E. Preston St., Baltimore, Md. 21202, regarding institution of nonmember subscriptions and nonreceipt of journals. Published monthly by the ASM at 428 E. Preston St., Baltimore, Md. 21202. Second class postage paid at Baltimore, Md., and at additional mailing offices.

Made in the United States of America.

Volume 3 **Contents for January** Number 1

Pathogenic Microorganisms and Infection

Chemical and Immunological Study of Colicins E_1, K, A, and Q. JEAN-PIERRE DANDEU.. 1
Role of Biological Mimicry in the Pathogenesis of Rat Arthritis Induced by *Mycoplasma arthritidis*. J. F. CAHILL, B. C. COLE, B. B. WILEY, AND J. R. WARD..... 24
Polyserositis Induced by *Escherichia coli* in Gnotobiotic Swine. R. C. MEYER, S. P. SAXENA, AND H. E. RHOADES..... 41
* Incidence of Cytomegaloviremia in Blood-Bank Donors and in Infants with Congenital Cytomegalic Inclusion Disease. R. MIRKOVIC, J. WERCH, M. A. SOUTH, AND M. BENYESH-MELNICK..... 45
Effect of Ca^{2+} on the Synthesis of Deoxyribonucleic Acid in Virulent and Avirulent *Yersinia*. GENE C. H. YANG AND R. R. BRUBAKER..... 59
Dissociation by Colchicine of the Hexose Monophosphate Shunt Activation from the Bactericidal Activity of the Leukocyte. LAWRENCE R. DECHATELET, M. ROBERT COOPER, AND CHARLES E. MCCALL..... 66
A Chromosomal Locus Which Controls the Ability of *Shigella flexneri* to Evoke Keratoconjunctivitis. SAMUEL B. FORMAL, P. GEMSKI, JR., L. S. BARON, AND E. H. LABREC. 73
Effect of Medium on H_2O_2 Levels and Peroxidase-Like Activity by *Mycoplasma pneumoniae*. I. E. LOW..... 80
Respiratory Pathogens in Monkeys. ROBERT C. GOOD AND BESSIE D. MAY..... 87
Mechanism of Action of the Enteropathogenic Factor of *Clostridium perfringens* Type A. L. NIILO..... 100
Relationship Between the Staining Quality of *Mycobacterium leprae* and Infectivity for Mice. DOROTHY H. MCRAE AND CHARLES C. SHEPARD..... 116
Hereditary Characteristic that Varies Among Isolates of *Mycobacterium leprae*. CHARLES C. SHEPARD AND DOROTHY H. MCRAE..... 121
Amino Acid Analysis and Molecular Weight Determination of Tetanus Toxin. MARLEE J. HOLMES AND WAYNE L. RYAN..... 133
Morphology, Physiology, and Virulence of Some Mutants of *Candida albicans*. N. SAVAGE AND E. BALISH..... 141
* Post-Transfusion Cytomegaloviremia and Persistence of Cytomegalovirus in Blood. DONALD ARMSTRONG, MATHEW ELY, AND LYNN STEGER..... 159
Clostridium perfringens Type A Food Poisoning. I. Response of the Rabbit Ileum as an Indication of Enteropathogenicity of Strains of *Clostridium perfringens* in Monkeys. CHARLES L. DUNCAN AND DOROTHY H. STRONG..... 167
Clostridium perfringens Type A Food Poisoning. II. Response of the Rabbit Ileum as an Indication of Enteropathogenicity of Strains of *Clostridium perfringens* in Human Beings. DOROTHY H. STRONG, CHARLES L. DUNCAN, AND GIUSEPPE PERNA..... 171
Clearance of *Serratia marcescens* from Lungs of Normal Mice. PAUL M. SOUTHERN, JR., ALAN K. PIERCE, AND JAY P. SANFORD..... 187

Ecology, Epidemiology, and Host Factors

Chemotactic Activity Generated by Staphylococcal Enterotoxin B. CHARLES P. CRAIG, SIGURD J. NORMANN, VIRGINIA MCGANN, AND WILLIAM S. IRVIN..... 94
Effects of Serum Components on Gram-Negative Bacteria During Bactericidal Reactions. LEE MELCHING AND STEPHEN I. VAS..... 107
Growth of *Mycobacterium lepraemurium* in Cell-Impermeable Diffusion Chambers. WILTON A. RIGHTSEL AND WILLIAM C. WIYGUL..... 127
Acid Phosphatase Cytochemistry of Phagocytizing Leukocytes from Patients with Chronic Granulomatous Disease. STEVEN D. DOUGLAS AND S. S. SPICER..... 179

Immunology

Occurrence of Protein A in Staphylococcal Strains: Quantitative Aspects and Correla-

XUM

tion to Antigenic and Bacteriophage Types. GÖRAN KRONVALL, JOHN H. DOSSETT, PAUL G. QUIE, AND RALPH C. WILLIAMS, JR. 10
Protection Against Pneumococcal Infection by a Ribosomal Preparation. H. C. W. THOMPSON AND I. S. SNYDER 16
Phenol-Soluble Antigens from *Mycobacterium kansasii, Mycobacterium gastri,* and *Mycobacterium marinum.* LAWRENCE G. WAYNE 36
Passive Immunization Against Experimental *Pseudomonas* Infection: Correlation of Protection to Verder and Evans "O" Serotypes. JOSEPH A. BASS AND JOHN C. MCCOY 51
Failure of Synthetic Polynucleotides to Affect the Immunogenicity of Mycobacterial Ribonucleic Acid and Ribosomal Protein Preparations. ANNE S. YOUMANS AND GUY P. YOUMANS 149
Effect of Purified Rabbit Anti-*Salmonella typhimurium* Antibodies on the Fate of Intravenously Injected Bacteria. MARTIN L. SCHULKIND AND PETER RABINS 154
*Interferon Production in Mixed Lymphocyte Cell Cultures. GEORGE E. GIFFORD, AGNES TIBOR, AND DUANE L. PEAVY 164
Mode of Action of Vibriocin: Initial Interaction with *Vibrio comma* Cells. PETER M. KROL AND H. FARKAS-HIMSLEY 184
Chemical Composition of Purified Cell Walls of Cariogenic Streptococci. ARNOLD S. BLEIWEIS, RONALD A. CRAIG, DORAN D. ZINNER, AND JAMES M. JABLON 189

* Papers Relating to Virology.

Volume 3 **Contents for February** **Number 2**

Bacterial and Mycotic Infections

Experimental *Pseudomonas aeruginosa* Infection of the Mouse Cornea. JOHN R. GERKE AND MICHAEL V. MAGLIOCCO 209
Nonencapsulated Variant of *Cryptococcus neoformans.* I. Virulence Studies and Characterization of Soluble Polysaccharide. THOMAS R. KOZEL AND JOHN CAZIN, JR. ... 287
Ultrastructural Analysis of the Effects of Penicillin and Chlortetracycline on the Development of a Genital Tract *Chlamydia.* M. J. KRAMER AND FRANCIS B. GORDON 333

Viral Infections

Nonspecific Factors in Monkey Tissues and Serum Causing Inhibition of Plaque Formation and Hemagglutination by Dengue Viruses. DONALD R. NASH, SCOTT B. HALSTEAD, ANDREW C. STENHOUSE, AND CAROLYN MCCUE 193
Virulence and Attenuation of Murine Cytomegalovirus. JUNE E. OSBORN AND DUARD L. WALKER 228
Induction of Xanthine Oxidase by Virus Infections in Newborn Mice. DONALD W. ZIEGLER, HARRIET D. HUTCHINSON, AND ROBERT E. KISSLING 237
Mouse Resistance Against Foot-and-Mouth Disease Virus Induced by Injections of Pyran. JONATHAN Y. RICHMOND 249
Age-Dependent Resistance of Mice to Sindbis Virus Infection: Viral Replication as a Function of Host Age. A. B. G. REINARZ, M. G. BROOME, AND B. P. SAGIK 268
Pathogenicity and Antigenicity of Clones from Strains of Marek's Disease Virus and the Herpesvirus of Turkeys. H. G. PURCHASE, B. R. BURMESTER, AND C. H. CUNNINGHAM 295
Effect of Antilymphocyte Serum on Reovirus Infection of Mice. SHIROH IDA AND YORIO HINUMA 304
Inhibition by Estrone of the Antiviral Protection and Interferon Elicited by Interferon Inducers in Mice. DAVID J. GIRON, PATTON T. ALLEN, FRANK F. PINDAK, AND JEROME P. SCHMIDT 318
Inhibition of Respiratory Virus Infections of Mice with Aerosols of Synthetic Double-Stranded Ribonucleic Acid. PETER J. GERONE, DAVID A. HILL, LOREN H. APPELL, AND SAMUEL BARON 323
New Member of the Herpesvirus Group Isolated from Wild Cottontail Rabbits. HARRY C. HINZE 350

Pathogenic Mechanisms, Ecology, and Epidemiology

Radiation, Infection, and Macrophage Function. IV. Effect of Radiation on the Proliferative Abilities of Mononuclear Phagocytes in Tuberculous Lesions of Rabbits. SAROJ CHANDRASEKHAR, KIYOSHI SHIMA, ARTHUR M. DANNENBERG, JR., TAKESHI KAMBARA, JACOB I. FABRIKANT, AND WILLIAM G. ROESSLER 254
Partial Reassociation Between the Deoxyribonucleic Acids of *Neisseria lactamicus* and *Neisseria meningitidis*. E. WEISS, N. N. WILSON, S. SCHRAMEK, AND J. C. HILL 274
Effect of L-Homoserine on the Growth of *Mycobacterium tuberculosis*. THOMAS P. O'BARR AND KAREN A. EVERETT 328
Cecal Enlargement and Microbial Flora in Suckling Mice Given Antibacterial Drugs. DWAYNE C. SAVAGE AND JULIA SUE MCALLISTER 342
Medium-Dependent Activity of Immune Serum on *Brucella*-Infected Macrophages. DORIS J. RALSTON AND SANFORD S. ELBERG 361
Inhibition of Deoxyribonucleic Acid Synthesis in Synchronized Populations of L Cells Infected with *Chlamydia psittaci*. ILSE I. E. TRIBBY AND JAMES W. MOULDER 363

Antimicrobial Agents and Chemotherapy

Effect of 7,12-Dimethylbenz[a]anthracene on Phagocytosis and Antibody Formation in Friend Virus Leukemia. STEPHEN C. ELLIOTT AND GERD T. SCHLOSS 217

Immunology

Sensitization and Recall of Anti-*Brucella* Immunity in Guinea Pig Macrophages by Attenuated and Virulent *Brucella*. DORIS J. RALSTON AND SANFORD S. ELBERG 200
Cellular and Humoral Antibody Responses of Normal Pastel and Sapphire Mink to Goat Erythrocytes. D. L. LODMELL, R. K. BERGMAN, W. J. HADLOW, AND J. J. MUNOZ 221
Antigens of *Bordetella pertussis*. V. Separation of Agglutinogen *1* and Mouse-Protective Antigen. R. F. ROSS AND J. MUNOZ 243
In Vivo and In Vitro Studies of Delayed-Type Hypersensitivity to *Toxoplasma gondii* in Guinea Pigs. J. L. KRAHENBUHL, A. A. BLAZKOVEC, AND M. G. LYSENKO 260
Immunological Study on the Host Cell Penetration Factor of *Toxoplasma gondii*. RAGNAR NORRBY 278
Antigenic Competition Between an Endotoxic Adjuvant and a Protein Antigen. DANIEL L. Y. LEONG AND JON A. RUDBACH 308
Rapid Fluorescent-Antibody Conjugation Procedure. M. PEACOCK, W. BURGDORFER, AND R. A. ORMSBEE 355
Antibody Formation in Rabbits Adapted and Nonadapted to High Altitude. GEORGE L. BROWN, MARY V. ROTHLAUF, ROLLIN H. HEINZERLING, AND TONY S. MYERS 358

Volume 3

Contents for March

Number 3

Bacterial and Mycotic Infections

Tyzzer's Disease of Rabbits: Isolation and Propagation of *Bacillus piliformis* (Tyzzer) in Embryonated Eggs. JAMES R. GANAWAY, ANTON M. ALLEN, AND THOMAS D. MOORE 429
Enhancement of Bacterial Infections in Mice by Newcastle Disease Virus. RUDOLPH HUGH, KUN-YEN HUANG, AND THOMAS B. ELLIOTT 488
Derivation of a Borg Strain of *Chlamydia psittaci* Attenuated for Mice. HENRY J. HEARN AND ALBERT S. HERRING 504

Viral Infections

Intracellular and Extracellular Mineral Crystal Formation Induced by Viral Infection of Cell Cultures. C. G. FABRICANT, J. H. GILLESPIE, AND L. KROOK 416
Effect of Antilymphocyte Serum on Tacaribe Virus Infection in Infant Mice. ERNEST C. BORDEN, FREDERICK A. MURPHY, NEAL NATHANSON, AND THOMAS P. C. MONATH... 466

Pathogenic Mechanisms, Ecology, and Epidemiology

Metabolic Event Involved in the Bactericidal Activity of Normal Mouse Macrophages. THOMAS E. MILLER 390

Interferon System in Cells from Human Tumors and from Persons Predisposed to Cancer. MICHAEL WORTHINGTON AND STUART A. AARONSON 424
Comparison of the Effects of a Synthetic Polyribonucleotide with the Effects of Endotoxin on Selected Host Responses. L. JOE BERRY, DOROTHY S. SMYTHE, LOUISE S. COLWELL, RONALD J. SCHOENGOLD, AND PAUL ACTOR 444
Purification and Properties of Staphylococcal Delta Hemolysin. ARNOLD S. KREGER, KWANG-SHIN KIM, FRANK ZABORETZKY, AND ALAN W. BERNHEIMER 449
Intestinal Strangulation in *Clostridium perfringens*-Monocontaminated Rats. CHARLES E. YALE AND EDWARD BALISH ..... 4[illegible]
Further Observations on the Antibacterial Nature of Prostatic Fluid. WILLIAM R. FAIR AND NANCY WEHNER ..... [illegible]94
Identification of Two Widely Separated Loci Conferring Nicotinic Acid Dependence on Wild-Type *Shigella flexneri* 2a. P. GEMSKI, JR., SAMUEL B. FORMAL, AND L. S. BARON 500

Antimicrobial Agents and Chemotherapy

Effect of Antibiotic Treatment on the Incidence of Infectious Drug Resistance Among Intestinal Lactose-Fermenting Bacteria Isolated from Burn Patients. ALTON B. STURTEVANT, JR., GAIL H. CASSELL, RAYMOND A. BOBO, AND THOMAS W. FEARY 411
Cycloserine Induction, Propagation, and Antimicrobial Susceptibility of Wall-Defective *Staphylococcus aureus*. CHATRCHAI WATANAKUNAKORN 438
Protection of *Mycobacterium smegmatis* from Ethambutol and Streptomycin Inhibition by $MgSO_4$ and Polyamines. WILLIAM H. BEGGS AND NANCY E. WILLIAMS 496

Immunology

Sensitization of Complement-Resistant Smooth Gram-Negative Bacterial Strains. B. L. REYNOLDS AND H. PRUUL 365
Immunodiffusion Studies of Purified Equine Infectious Anemia Virus. HIDEO NAKAJIMA AND CHUZO USHIMI 373
Separation of Mycobacterial Soluble Antigens by Isoelectric Focusing. R. G. MOULTON, T. M. DIETZ, AND S. MARCUS 378
Group A Streptococcal Polysaccharide Antigens. TAKASHI MATSUNO AND HUTTON D. SLADE 385
Properties of a Cold Hemagglutinin Associated with Leptospiral Hemolytic Anemia of Sheep. J. L. BHASIN, M. J. FREEMAN, AND R. L. MORTER 398
Bactericidal Effect and Serological Response of Blood and Secretions in Bovine Vibriosis. S. P. CARRIER AND T. T. KRAMER 405
Production and Properties of Antisera to Membrane Glycolipids of *Mycoplasma pneumoniae*. S. RAZIN, B. PRESCOTT, W. D. JAMES, G. CALDES, J. VALDESUSO, AND R. M. CHANOCK 420
Macrophage Cytophilic Antibody in Mice: Effect of Bacterial Lipopolysaccharide on the Uptake of Immunoglobulins by Mouse Peritoneal Cells. IAN R. TIZARD 472
Delayed Hypersensitivity Induced in Guinea Pigs by 7,12-Dimethylbenz(a)anthracene. DENIS R. BURGER, LAWRENCE E. IRISH, R. MARK VETTO, AND DAVID J. HINRICHS ... 478
Evidence for Molecular Heterogeneity of the Specific Antigen (Fraction-I) of *Pasteurella pestis*. WILLIAM HABIG, BRUCE W. HUDSON, JOHN D. MARSHALL, JR., DAN C. CAVANAUGH, AND JAMES H. RUST, JR. 498

Volume 3 **Number 4**

Contents for April

Bacterial and Mycotic Infections

Role of Complement During Experimental *Candida* Infection in Mice. REMO MORELLI AND LEON T. ROSENBERG 521

Viral Infections

Replication of Rabies Virus in Organized Cultures of Mammalian Neural Tissues. SEIICHI MATSUMOTO AND TAKESHI YONEZAWA 606

Transmissible Disease, Probably Viral in Origin, Affecting the Amebocytes of the European Shore Crab, *Carcinus maenas*. FREDERIK B. BANG 617

Pathogenic Mechanisms, Ecology, and Epidemiology

Effects of Panton-Valentine Leukocidin of *Staphylococcus aureus* on Leukocytes from Patients with Leukemia. H. BLOBEL, K. WENK, AND M. KANOE 507
Effect of Separate and Combined Injections of Poly rI:Poly rC and Endotoxin on Reticuloendothelial Activity, Interferon, and Antibody Production in the Mouse. THOMAS J. CHESTER, ERIK DE CLERCQ, AND THOMAS C. MERIGAN 516
Use of a Plating Method to Estimate Extracellular Protein Production by Staphylococci. JAMES M. JAY 544
Mechanism of Tuberculostasis in Mammalian Serum. III. Neutralization of Serum Tuberculostasis by Mycobactin. IVAN KOCHAN, NEAL R. PELLIS, AND CAROLE A. GOLDEN 553
Selective Bacterial Adherence to Oral Epithelial Surfaces and Its Role as an Ecological Determinant. R. J. GIBBONS AND J. VAN HOUTE 567
Mutations Influencing the Assimilation of Nitrogen by *Yersinia pestis*. R. R. BRUBAKER AND A. SULEN, JR. 580
Extracellular Antigens from *Listeria monocytogenes*. I. Purification and Resolution of Hemolytic and Lipolytic Antigens from Culture Filtrates of *Listeria monocytogenes*. E. M. JENKINS AND B. B. WATSON 589
Role of the Phagocyte in Host-Parasite Interactions. XXVII. Myeloperoxidase-H_2O_2-Cl^--Mediated Aldehyde Formation and Its Relationship to Antimicrobial Activity. R. R. STRAUSS, B. B. PAUL, A. A. JACOBS, AND A. J. SBARRA 595
Disruption of Bacterial Protoplasts and Spheroplasts by Staphylococcal Delta Hemolysin. ARNOLD S. KREGER AND ALAN W. BERNHEIMER 603
Separation of Gamma Hemolysin from *Staphylococcus aureus* Smith 5R. R. MÖLLBY AND T. WADSTRÖM 633

Antimicrobial Agents and Chemotherapy

Mechanism of Action of Isoniazid on *Mycobacterium bovis* Strain BCG. J. KENNETH MCCLATCHY 530
Cephalexin: Absorption and Excretion as Related to Renal Function and Hemodialysis. BORIS E. REISBERG AND JORGE M. MANDELBAUM 540

Immunology

Immunogenicity of *Mycoplasma pneumoniae*. GEORGE E. KENNY 510
Antigenic Differences Between *Mycobacterium bovis* Strain BCG and an Isoniazid-Resistant Mutant. PERCY MINDEN, J. KENNETH MCCLATCHY, EMIL J. BARDANA, JR., AND RICHARD S. FARR 524
Demonstration of Serologically Different Capsular Types Among Strains of *Staphylococcus aureus* by the Serum-Soft Agar Technique. KOSAKU YOSHIDA 535
Lymphoid Cells in Delayed Hypersensitivity. II. In Vitro Phagocytosis and Cellular Immunity. S. B. SALVIN AND SHU-LAN CHENG 548
Latent Syphilis: Immunoglobulins Reactive in Immunofluorescence and Other Serological Tests. A. J. JULIAN, L. C. LOGAN, L. C. NORINS, AND A. T. SCOTTI 559
Purification and Partial Characterization of a *Vibrio fetus* Immunogen. L. L. MYERS .. 562
Immunogenicity of Purified Venezuelan Equine Encephalitis Virus Inactivated by Ionizing Radiation. JACK GRUBER 574
Particulate Fractions of *Neisseria gonorrhoeae*. DOUGLAS S. KELLOG, JR., EMILY M. TURNER, CAREY CALLAWAY, LINDA LEE, AND JOHN E. MARTIN, JR 624

Volume 3 **Number 5**

Contents for May

Bacterial and Mycotic Infections

Vancomycin Induction of L Colonies of *Staphylococcus aureus*. CHATRCHAI WATANAKUNAKORN 709

XUM

Viral Infections

Response to Experimental Infection with Mumps Virus in Rhesus Monkeys. THOMAS D. FLANAGAN, JUAN A. ANDRADA, ALMEN L. BARRON, AND ERNEST WITEBSKY . . . 642

Pathogenic Mechanisms, Ecology, and Epidemiology

Streptolysin O. II. Relationship of Sulfhydryl Groups to Activity. DENNIS E. VAN EPPS AND BURTON R. ANDERSEN . . . 648
Pathogenesis of *Clostridium botulinum* Type A: Study of In Vivo Toxin Release by Implantation of Diffusion Chambers Containing Spores, Vegetative Cells, and Free Toxin. J. B. SUZUKI, R. BOOTH, A. BENEDIK, AND N. GRECZ . . . 659
Serum Bacteriostasis of *Staphylococcus aureus*. N. JOEL EHRENKRANZ, DAVID F. ELLIOT, AND ROMEO ZARCO . . . 664
Comparative Production of Interferon by Human Fetal, Neonatal, and Maternal Cells. WILLIAM A. CARTER, KENNETH R. HANDE, BONIFACE ESSIEN, EDWARD PROCHOWNIK, AND MICHAEL M. KABACK . . . 671
Properties of the Hemolytic Activities of *Escherichia coli*. EVERETT C. SHORT, JR., AND HAROLD J. KURTZ . . . 678
Effect of Ethanol on the Clearance of Airborne Pneumococci and the Rate of Pneumococcal Transformations in the Lung. FRAN AUERBACH-RUBIN AND ELENA OTTOLENGHI-NIGHTINGALE . . . 688
Relationships Between *Mycoplasma pneumoniae* and Human Respiratory Epithelium. ALBERT M. COLLIER AND WALLACE A. CLYDE, JR. . . . 694
High Thiobarbiturate-Positive O Antigen of *Escherichia coli*. KIYOSHI SUZUKI, YASUKO TADA, AND TADAKATU TAZAKI . . . 702
Activity of Lipid Extracts from a Group A *Streptococcus* Against Ehrlich Ascites Carcinoma in Mice. SHIGERU KIGOSHI . . . 705
Use of the Clumping Factor Reaction for the Identification of Encapsulated Strains of *Staphylococcus aureus* from Human Sources. MELVIN R. SMITH, KOSAKU YOSHIDA, AND YOSHIKO NAITO . . . 707

Immunology

Characteristics of Cytophilic Antibody in the Mouse. GEORGE L. BROWN AND PHILIP L. CARPENTER . . . 637
Chemical Structure and Immunological Specificity of the Streptococcal Group E Cell Wall Polysaccharide Antigen. PANDU SOPREY AND HUTTON D. SLADE . . . 653
Improved Method for Immunoelectrophoretic Research. TAHA A. EL-SHARKAWY AND DONALD HUISINGH . . . 711

Volume 3 **Contents for June** **Number 6**

Bacterial and Mycotic Infections

Escherichia coli Isolated from Domestic Animals Pathogenic for Gnotobiotic Piglets. R. C. MEYER, H. E. RHOADES, S. P. SAXENA, AND J. SIMON . . . 735
Effect of Interferon and Interferon Inducers on Infections with a Nonviral Intracellular Microorganism, *Rickettsia akari*. J. KAZAR, P. A. KRAUTWURST, AND F. B. GORDON . . . 819
Effect of Interferon and Interferon Inducers on Infections with a Nonviral Intracellular Microorganism, *Chlamydia trachomatis*. J. KAZAR, J. D. GILLMORE, AND F. B. GORDON . . . 825
Location of *Vibrio fetus* var. *venerealis* Within the Endometrium of the Cow. B. N. WILKE AND A. J. WINTER . . . 854

Viral Infections

Taxonomic Features of Seven Serotypes of Simian and Ape Foamy Viruses. PAUL B. JOHNSTON . . . 793
Pathogenesis of Feline Panleukopenia Virus in Susceptible Newborn Kittens. I. Clinical

Signs, Hematology, Serology, and Virology. C. K. CSIZA, F. W. SCOTT, A. DE LAHUNTA, AND J. H. GILLESPIE 833
Pathogenesis of Feline Panleukopenia Virus in Susceptible Newborn Kittens. II. Pathology and Immunofluorescence. C. K. CSIZA, A. DE LAHUNTA, F. W. SCOTT, AND J. H. GILLESPIE 838

Pathogenic Mechanisms, Ecology, and Epidemiology

Rabbit Arthritis Induced by Cell-Free Extracts of *Erysipelothirx*. THOMAS G. WHITE, JERRY L. PULS, AND FRANK K. MIRIKITANI 715
Fatty Acid Requirements of the Kazan 5 and Reiter Strains of *Treponema pallidum*. RUSSELL C. JOHNSON AND LAURA M. EGGEBRATEN 723
Metabolism of Common Substrates by the Reiter Strain of *Treponema pallidum*. S. L. ALLEN, R. C. JOHNSON, AND D. PETERSON 727
Antiphagocytic Effect of Slime from Mucoid Strain of *Pseudomonas aeruginosa*. STEPHEN SCHWARZMANN AND JOHN BORING III 762
Influence of the Indigenous Gastrointestinal Microbial Flora on Duodenal Alkaline Phosphatase Activity in Mice. DIANE P. YOLTON, CAROL STANLEY, AND DWAYNE C. SAVAGE 768
Correlation of Staphylococcal Bacteriophage Types to L-Form Colony Production HARRY P. DALTON, MARIO R. ESCOBAR, AND MARVIN J. ALLISON 774
Stimulation of Enterotoxin B Production. I. Stimulation by Fractions from a Pancreatic Digest of Casein. CHENG-HSIEN WU AND MERLIN S. BERGDOLL 777
Stimulation of Enterotoxin B Production. II. Synthetic Medium for Staphylococcal Growth and Enterotoxin B Production. CHENG-HSIEN WU AND MERLIN S. BERGDOLL 784
Measurement of Candidacidal Activity of Specific Leukocyte Types in Mixed Cell Populations. II. Normal and Chronic Granulomatous Disease Eosinophils. ROBERT I. LEHRER 800
Effect of Carbohydrates on Hemolysin Production by *Escherichia coli*. R. P. RENNIE AND J. P. ARBUTHNOTT 849

Antimicrobial Agents and Chemotherapy

Sensitivity of Types 1 and 2 *Herpesvirus hominis* to an Interferon Inducer, Poly I:C. J. O. OH 847
Stimulation of Leukocyte Hexose Monophosphate Shunt Activity by Ascorbic Acid. M. ROBERT COOPER, CHARLES E. MCCALL, AND LAWRENCE R. DECHATELET 851

Immunology

Cellular Response of the Rabbit Eye to Primary Intravitreal Injection of *Neisseria meningitidis*. JAMES F. PRIBNOW, JOAN M. HALL, DIANE BRADLEY, AND NEYLAN A. VEDROS 739
Immunochemical Studies of Two Cholera Toxin-Containing Standard Culture Filtrate Preparations of *Vibrio cholerae*. J. HOLMGREN, I. LÖNNROTH, AND Ö. OUCHTERLONY. 747
Immunosuppressive Agents in Intracellular Infection: Besnoitiosis in Hamsters. H. R. WILSON AND J. K. FRENKEL 756
Serological Properties of γG and γM Antibodies to the Somatic Antigen of *Vibrio cholerae* During the Course of Immunization of Rabbits. ROBERT M. PIKE AND CLEO H. CHANDLER 803
Effect of β-3-Thienylalanine on Antibody Synthesis. IV. Suppression of the Immune Response in Mice. ALDO MISEFARI AND MARIANO F. LA VIA 810
Rate of Clearance of *Vibrio fetus* var. *venerealis* in the Rabbit. S. P. CARRIER AND T. T. KRAMER 815

AUTHOR INDEX

Aaronson, Stuart A., 424
Actor, Paul, 444
Allen, Anton M., 429
Allen, Patton T., 318
Allen, S. L., 727
Allison, Marvin J., 774
Andersen, Burton R., 648
Andrada, Juan A., 642
Appell, Loren H., 323
Arbuthnott, J. P., 849
Armstrong, Donald, 159
Auerbach-Rubin, Fran, 688

Balish, Edward, 141, 481
Bang, Frederik B., 617
Bardana, Emil J., Jr., 524
Baron, L. S., 73, 500
Baron, Samuel, 323
Barron, Almen L., 642
Bass, Joseph A., 51
Beggs, William H., 496
Benedik, A., 659
Benyesh-Melnick, M., 45
Bergdoll, Merlin S., 777, 784
Bergman, R. K., 221
Bernheimer, Alan W., 449, 603
Berry, L. Joe, 444
Bhasin, J. L., 398
Blazkovec, A. A., 260
Bleiweis, Arnold S., 189
Blobel, H., 507
Bobo, Raymond A., 411
Booth, R., 659
Borden, Ernest C., 466
Boring, John R., III, 762
Bradley, Diane, 739
Broome, M. G., 268
Brown, George L., 358, 637
Brubaker, R. R., 59, 580
Burgdorfer, W., 355
Burger, Denis R., 478
Burmester, B. R., 295

Cahill, J. F., 24
Caldes, G., 420
Callaway, Carey, 624
Carpenter, Philip L., 637
Carrier, S. P., 405, 815
Carter, William A., 671
Cassell, Gail H., 411
Cavanaugh, Dan C., 498
Cazin, John, Jr., 287
Chandler, Cleo H., 803
Chandrasekhar, Saroj, 254
Chanock, R. M., 420
Cheng, Shu-Lan, 548
Chester, Thomas J., 516
Clyde, Wallace A., Jr., 694
Cole, B. C., 24
Collier, Albert M., 694
Colwell, Louise S., 444
Cooper, M. Robert, 66, 851
Craig, Charles P., 94
Craig, Ronald A., 189
Csiza, C. K., 833, 838
Cunningham, C. H., 295

Dalton, Harry P., 774
Dandeu, Jean-Pierre, 1
Dannenberg, Arthur M., Jr., 254
DeChatelet, Lawrence R., 66, 851
De Clercq, Erik, 516
de Lahunta, A., 833, 838
Dietz, T. M., 378
Dossett, John H., 10
Douglas, Steven D., 179
Duncan, Charles L., 167, 171

Eggebraten, Laura M., 723
Ehrenkranz, N. Joel, 664
Elberg, Sanford S., 361, 200
Elliott, David F., 664
Elliott, Stephen C., 217
Elliott, Thomas B., 488
El-Sharkawy, A., 711
Ely, Mathew, 159
Escobar, Mario R., 774
Essien, Boniface, 671
Everett, Karen A., 328

Fabricant, C. G., 416
Fabrikant, Jacob I., 254
Farr, Richard S., 524
Fair, William R., 494
Farkas-Himsley, H., 184
Feary, Thomas W., 411
Flanagan, Thomas D., 642
Formal, Samuel B., 73, 500
Freeman, M. J., 398
Frenkel, J. K., 756

Ganaway, James R., 429
Gemski, P., Jr., 73, 500
Gerke, John R., 209
Gerone, Peter J., 323
Gibbons, R. J., 567
Gifford, George E., 164
Gillespie, J. H., 416, 833, 838
Gillmore, J. D., 825
Giron, David J., 318
Golden, Carole A., 553
Good, Robert C., 87
Gordon, Francis B., 333, 819, 825
Grecz, N., 659
Gruber, Jack, 574

Habig, William, 498
Hadlow, W. J., 221
Hall, Joan M., 739
Halstead, Scott B., 193
Hande, Kenneth R., 671
Hearn, Henry J., 504
Heinzerling, Rollin H., 358
Herring, Albert S., 504
Hill, David A., 323
Hill, J. C., 274
Hinrichs, David J., 478
Hinuma, Yorio, 304
Hinze, Harry C., 350
Holmes, Marlee J., 133
Holmgren, J., 747
Huang, Kun-Yen, 488
Hudson, Bruce W., 498
Hugh, Rudolph, 488
Huisingh, Donald, 711
Hutchinson, Harriet D., 237

Ida, Shiroh, 304
Irish, Lawrence E., 478
Irvin, William S., 94

Jablon, James M., 189
Jacobs, A. A., 595
James, W. D., 420
Jay, James M., 544
Jenkins, E. M., 589
Johnson, Russell C., 723, 727
Johnston, Paul B., 793
Julian, A. J., 559

Kaback, Michael M., 671
Kambara, Takeshi, 254
Kanoe, M., 507
Kazar, J., 819, 825
Kellog, Douglas S , Jr., 624
Kenny, George E., 510
Kigoshi, Shigeru, 705
Kim, Kwang-Shin, 449
Kissling, Robert E., 237
Kochan, Ivan, 553
Kozel, Thomas R., 287
Krahenbuhl, J. L., 260
Kramer, M. J., 333
Kramer, T. T., 405, 815
Krautwurst, P. A., 819
Kreger, Arnold S., 449, 603
Krol, Peter M., 184
Kronvall, Göran, 10
Krook, L., 416
Kurtz, Harold J., 678

LaBrec, E. H., 73
La Via, Mariano F., 810
Lee, Linda, 624

Lehrer, Robert I., 800
Leong, Daniel L. Y., 308
Lodmell, D. L., 221
Logan, L. C., 559
Lönnroth, I., 747
Low, I. E., 80
Lysenko, M. G., 260

McAllister, Julia Sue, 342
McCall, Charles E., 66, 851

SUBJECT INDEX

Acid phosphatase cytochemistry
—of leukocytes from patients with chronic granulomatous disease, 179
Age-dependent resistance
—of mice to Sindbis virus infection, 268
Agglutinogen *1*
—of *B. pertussis*, 243
Aldehyde formation
—mode of action of the myeloperoxidase-H_2O_2-chloride antimicrobial system, 595
Alimentary microflora
—influence on duodenal alkaline phosphatase activity, 768
Alkaline phosphatase activity
—influence of gastrointestinal microbial flora, 768
Alpha-amino-*n*-butyric acid
—growth of *M. tuberculosis* inhibited by, 328
Altitude
—effect on antibody formation in rabbits, 358
Amebocytes
—transmissible disease affecting, 617
Amino acid analysis
—of tetanus toxin, 133
Amino acid utilization
—medium for staphylococcal growth based on, 784
Amino acids
—role in metabolism of the Reiter treponeme, 727
Antibacterial drugs
—cecal enlargement and microbial flora in mice treated with, 342
Antibacterial factor
—of prostatic fluid, 494
Antibiotic treatment
—effect on infectious drug resistance among bacteria from burn patients, 411
Antibody formation
—effect of 7,12-dimethylbenz[a]anthracene on, 217
—in rabbits adapted and nonadapted to high altitudes, 358
Antibody production
—effect of injections of poly rI:poly rC and endotoxin on, 516
Antibody responses
—of mink to goat erythrocytes, 221
—to varying immunogen doses of *M. pneumoniae*, 510
Antibody synthesis
—effect of β-3-thienylalanine on, 810
Anti-*Brucella* immunity
—sensitization and recall in guinea pig macrophages, 200
Antigenic competition
—between an endotoxic adjuvant and a protein antigen, 308
Antigenic types
—correlation with protein A in staphylococci, 10
Antigens
—of *B. pertussis*, 243
Antilymphocyte serum
—effect on reovirus infection of mice, 304
—effect on Tacaribe virus infection in infant mice, 466
Antimicrobial susceptibility
—of wall-defective *S. aureus*, 438
Antiphagocytic effect
—of slime from mucoid *P. aeruginosa*, 762
Anti-*Salmonella typhimurium* antibodies
—effect on fate of intravenously injected bacteria, 154
Antisera
—to membrane glycolipids of *M. pneumoniae*, 420
Antitumor activity
—of cells of group A *Streptococcus*, 705
Antiviral protection
—elicited by interferon inducers in mice, 318
Ape foamy viruses
—taxonomic features of, 793
Arthritis
—induced in rabbits by *Erysipelothrix*, 715
Ascorbic acid
—leukocyte hexose monophosphate shunt activity stimulated by, 851
Attenuation phenomenon
—exhibited by passaged murine cytomegalovirus, 228

Bacillus piliformis (Tyzzer)
—isolation and propagation in embryonated eggs, 429
Bacterial adherence
—to oral epithelial surfaces, 567
Bacterial infections
—enhanced in mice by Newcastle disease virus, 488
Bacterial lipopolysaccharide
—effect on uptake of immunoglobulins by peritoneal macrophages, 472
Bacterial protoplasts and spheroplasts
—disruption by staphylococcal delta hemolysin, 603
Bactericidal activity
—dissociated from hexose monophosphate shunt activation of the leukocyte, 66
—of normal mouse macrophages, 390
Bactericidal reactions
—effects of serum components on gram-negative bacteria during, 107
Bacteriophage types
—correlation with protein A in staphylococcal strains, 10
Bacteriostasis
—of *S. aureus* by serum, 664
Besnoitia
—effect of immunosuppressants on immunity to, 756
Besnoitiosis
—in hamsters, 756
Bicarbonate
—role in metabolism of the Reiter treponeme, 727
Biological mimicry
—role in pathogenesis of rat arthritis, 24
Blood
—persistence of cytomegalovirus in, 159
Blood and secretions
—serological response in bovine vibriosis, 405
Blood-bank donors
—incidence of cytomegaloviremia in, 45

Blood vessels
—as route of dissemination of feline panleukopenia virus, 838
Body fluids
—action with respect to *C. botulinum* spore germination, 659
Bordetella pertussis
—antigens of, 243
Borg strain
—of *C. psittaci*, attenuated variant, 504
Bovine gamma globulin
—antigenic competition with an endotoxic adjuvant, 308
Bovine reproductive tract
—penetration by *V. fetus* var. *venerealis*, 854
Bovine vibriosis
—serological response of blood and secretions in, 405
Brucella
—sensitization and recall of anti-*Brucella* immunity by, 200
Brucella-infected macrophages
—medium-dependent activity of immune serum on, 361
Brucella melitensis Rev I
—growth in guinea pig macrophages, 200
Burn patients
—infectious drug resistance among bacteria from, 411

Ca^{2+}
—effect on synthesis of DNA in *Yersinia*, 59
Calf
—*E. coli* isolated from pathogenic for piglets, 735
Candida albicans
—role of complement during infection with, 521
Candida albicans mutants
—morphology, physiology, and virulence, 141
Candidacidal activity
—of specific leukocyte types in mixed cell populations, 800
Capsular types
—among strains of *S. aureus*, 535
Carbohydrates
—effect on hemolysin production by *E. coli*, 849
Carcinogen
—delayed sensitivity elicited by, 478
Carcinus maenas
—transmissible disease affecting amebocytes of, 617
Cariogenic streptococci
—chemical composition of cell walls, 189
Cat
—*E. coli* isolated from pathogenic for piglets, 735
Cecal enlargement
—in suckling mice given antibacterial drugs, 342
Cell cultures
—mineral crystal formation in, 416
Cell-impermeable diffusion chambers
—growth of *M. lepraemurium* in, 127
Cell walls
—in *N. gonorrhoeae* particulate fractions, 624
—of cariogenic streptococci, 189
Cellular changes
—resulting from delayed hypersensitivity, 548
Cellular defense mechanism
—role in meningococcal infection, 739
Cellular immune mechanism
—significance in viral infection, 304
Cellular immunity
—effect of delayed hypersensitivity on, 548
Central nervous system
—effect of feline panleukopenia virus on, 833
Cephalexin
—absorption and excretion as related to renal function, 540
Cerebellar disease
—in kittens infected with feline panleukopenia virus, 833, 838
Chemical structure
—of streptococcal group E cell wall antigen, 653
Chemotactic activity
—generated by staphylococcal enterotoxin B, 94
Chickens
—pathogenicity of clones of Marek's disease virus in, 295
Chlamydia
—effects of penicillin and chlortetracycline on, 333
Chlamydia psittaci
—derivation of a Borg strain attenuated for mice, 504
—DNA synthesis inhibited in L cells infected with, 363
Chlamydia trachomatis
—effect of interferon on infection with, 825
Chlortetracycline
—effect on development of a *Chlamydia*, 333
Cholera toxin
—preparations of *V. cholerae* containing, 747
Chromosomal locus
—controlling ability of *S. flexneri* to evoke keratoconjunctivitis, 73
Chronic granulomatous disease
—phagocytizing leukocytes from patients with, 179
Chronic granulomatous disease eosinophils
—candidacidal activity of, 800
Clearance rate
—of *V. fetus* var. *venerealis* in rabbits, 815
Clones
—from Marek's disease virus and herpesvirus of turkeys, 295
Clostridium botulinum type A
—pathogenesis of, 659
Clostridium perfringens
—intestinal strangulation in rats monocontaminated with, 481
Clostridium perfringens type A
—action of the enteropathogenic factor of, 100
—food poisoning caused by, 167, 171
Clumping factor reaction
—for identification of encapsulated *S. aureus*, 707
Colchicine
—effect on leukocyte metabolism, 66
Cold hemagglutinin
—associated with leptospiral hemolytic anemia of sheep, 398
Colicins E_1, K, A, and Q
—chemical and immunological study of, 1
Common antigen site "L"
—to colicins E_1, Q, and H, 1
Complement
—role during *Candida* infection in mice, 521
Complement-resistant gram-negative bacteria
—sensitization of, 365

Conjugates
—prepared against various rickettsial agents, 355
Corneal wounds
—infected with *P. aeruginosa*, 209
Cottontail rabbits
—new herpesvirus isolated from, 350
Cryptococcus neoformans
—nonencapsulated variant of, 287
Culture filtrate preparations
—of *V. cholerae*, 747
Cycloserine
—wall-defective *S. aureus* induced by, 438
Cytomegalic inclusion disease
—cytomegaloviremia in infants with, 45
Cytomegaloviremia
—in patients post-transfusion, 159
—incidence in blood-bank donors and infants, 45
Cytomegalovirus
—persistence in blood, 159
Cytophilic antibody
—characteristics in the mouse, 637

Delayed hypersensitivity
—induced by 7,12-dimethylbenz(a)anthracene, 478
—lymphoid cells in, 548
Delayed-type hypersensitivity
—to *T. gondii*, 260
Delta hemolysin
—disruption of bacterial protoplasts and spheroplasts by, 603
—purification and properties, 449
Dengue viruses
—inhibition of hemagglutination by, 193
Deoxyribonucleic acid
—effect of Ca^{2+} on synthesis in *Yersinia*, 59
Deoxyribonucleic acid synthesis
—effect of isoniazid in *M. bovis* BCG, 530
—inhibited in L cells infected with *C. psittaci*, 363
Deoxyribonucleic acids
—of *Neisseria* strains, reassociation between, 274
Dermal lesions
—caused by tubercle bacilli, effect of radiation, 254
Diffusion chamber technique
—for growth of *M. lepraemurium*, 127
7,12-Dimethylbenz(a)anthracene
—delayed hypersensitivity induced in guinea pigs by, 478
—effect on Friend virus leukemia, 217
Diplococcus pneumoniae
—immunity induced by ribosomal extract from, 16
Dog
—*E. coli* isolated from pathogenic for piglets, 735
Dorsal root ganglion cultures
—replication of rabies virus in, 606
Double-stranded ribonucleic acid
—respiratory virus infections inhibited with aerosols of, 323

"Early" antibody
—effect on reticuloendothelial sequestration of bacteria, 154
Ehrlich ascites carcinoma
—lipid extracts from group A *Streptococcus* active against, 705
Encapsulated strains
—of *S. aureus*, identification of, 707
Endometrium
—location of *V. fetus* var. *venerealis* within, 854
Endotoxic adjuvant
—antigenic competition with a protein antigen, 308
Endotoxin
—effect on reticuloendothelial activity, interferon, and antibody production, 516
—effects on selected host responses, 444
Enteric diseases
—role of *E. coli* hemolysins in, 678
Enteric infection
—role of *C. perfringens* enteropathogenic factor in, 100
Enteropathogenic factor
—of *C. perfringens* type A, 100
Enterotoxemia
—pathophysiology of, 94
Enterotoxin B production
—stimulated by pancreatic digest of casein, 777
—synthetic medium for, 784
Enterotoxin-stimulating substances
—obtained from Protein Hydrolysate Powder, 777
Eosinophils
—candidacidal activity of, 800
—from patients with chronic granulomatous disease, 179
Epithelial cells
—ability of *S. flexneri* to penetrate, 73
Equine infectious anemia virus
—immunodiffusion studies of, 373
Erysipelothrix
—rabbit arthritis induced by, 715
Escherichia coli
—effect of carbohydrates on hemolysin production by, 849
—effects of serum factors on metabolism of, 107
—hemolytic activities of, 678
—pathogenic for gnotobiotic piglets, 735
—polyserositis induced in swine by, 41
—thiobarbiturate-positive O antigen of, 702
Estrone
—effect on antiviral protection and interferon elicited in mice, 318
Ethambutol inhibition
—protection of *M. smegmatis* from, 496
Ethanol
—effect on clearance of pneumococci from the lungs, 688
European shore crab
—transmissible disease affecting amebocytes of, 617
Extracellular antigens
—from *L. monocytogenes*, 589
Extracellular protein
—produced by staphylococci, 544

Fast strains
—of *M. leprae*, 121
Fatty acids
—required by Kazan 5 and Reiter treponemes, 723
—role in metabolism of the Reiter treponeme, 727
Feline panleukopenia virus
—pathogenesis in newborn kittens, 833, 838

Feline viruses
—mineral crystal formation in cultures infected with, 416
Fetal cells
—interferon production by, 671
Fluorescent-antibody conjugation procedure
—for direct staining of rickettsial agents, 355
Fluorescent-antibody technique
—for tracing spread of feline panleukopenia virus, 838
Food poisoning
—caused by *Clostridium perfringens* type A, 167, 171
Foot-and-mouth disease virus
—mouse resistance against, 249
Fraction-1
—of *P. pestis*, 498
Friend virus leukemia
—effect of 7,12-dimethylbenz[a]anthracene on, 217
Fulminating septicemias
—factors which incite, 488

γG and γM antibodies
—serological response to somatic antigen of *V. cholerae*, 803
Galagos
—new simian viruses recovered from, 793
Gamma hemolysin
—separation from *S. aureus* Smith 5R, 633
Gastrointestinal microbial flora
—influence on alkaline phosphatase activity, 768
Genital tract *Chlamydia*
—effects of penicillin and chlortetracycline on, 333
Glucose
—role in metabolism of the Reiter treponeme, 727
Glycine
—required for growth of *Y. pestis*, 580
Glycolipid haptens
—of *M. pneumoniae*, immunogenicity of, 420
Gnotobiotic piglets
—*E. coli* pathogenic for, 735
—polyserositis induced by *E. coli* in, 41
Goat erythrocytes
—antibody responses of mink to, 221
Gram-negative bacteria
—effects of serum components during bactericidal reactions, 107
—sensitization of, 365
Group A *Streptococcus*
—antitumor activity of lipid extracts from, 705
—polysaccharide antigens of, 385
Guinea pigs
—delayed hypersensitivity induced in, 478
—delayed-type hypersensitivity to *T. gondii* in, 260
—effect of enteropathogenic factor of *C. perfringens*, 100
—growth of *M. lepraemurium* in diffusion chambers in, 127
Guinea pig macrophages
—anti-*Brucella* immunity in, 200

Hamsters
—besnoitiosis in, 756
Hemodialysis
—absorption and excretion of cephalexin related to, 540
Hemolysin
—effect of carbohydrates on production by *E. coli*, 849
Hemolysins
—of *E. coli*, 678
Hemolytic activities
—of *E. coli*, 678
Hemolytic anemia of sheep
—cold hemagglutinin associated with, 398
Hemolytic antigens
—from culture filtrates of *L. monocytogenes*, 589
Hemorrhagic strangulation
—in *C. perfringens*-monocontaminated rats, 481
Hereditary characteristic
—that varies among isolates of *M. leprae*, 121
Herpesvirus group
—new member isolated from cottontail rabbits, 350
Herpesvirus hominis types 1 and 2
—sensitivity to poly I:C, 847
Herpesvirus of turkeys
—pathogenicity and antigenicity of clones from, 295
Herpesvirus sylvilagus
—new herpesvirus from cottontail rabbits, 350
Heterogenetic antigen
—common to *M. arthritidis* and the rat, 24
Hexose monophosphate shunt activity
—dissociated from bactericidal activity of the leukocyte, 66
—stimulated by ascorbic acid in red blood cells, 851
H_2O_2 levels
—of *M. pneumoniae*, 80
L-Homoserine
—effect on growth of *M. tuberculosis*, 328
Host age
—replication of Sindbis virus as a function of, 268
Host cell penetration factor
—of *T. gondii*, 278
Host-parasite interactions
—role of the phagocyte in, 595
Host responses
—effects of poly I: poly C and endotoxin on, 444
Household pets
—source of *E. coli* pathogenic for swine, 735
Human beings
—enteropathogenicity of *C. perfringens* in, 171
Human eosinophils
—cadidacidal activity of, 800
Human fetal and maternal cells
—interferon production by, 671
Human respiratory epithelium
—relationship with *M. pneumoniae*, 694
Human tumors
—interferon system in cells from, 424
Humoral antibodies
—in immunity against *V. fetus* var. *venerealis*, 815
Hydrogen peroxide
—role in bactericidal activity of normal mouse macrophages, 390

Immune mechanisms
—in bovine vibriosis, 405
Immune recognition mechanisms
—involvement of interferon production in, 164
Immune response
—suppressed in mice by β-3-thienylalanine, 810

—to mumps virus infection in rhesus monkeys, 642
Immune serum
—medium-dependent activity on *Brucella*-infected macrophages, 361
Immunochemical characterization
—of cholera toxin-containing preparations of *V. cholerae*, 747
Immunodiffusion studies
—of purified equine infectious anemia virus, 373
Immunoelectrophoretic research
—improved method for, 711
Immunogen
—released during growth of *V. fetus*, 562
Immunogenicity
—of *M. pneumoniae*, 510
—of purified Venezuelan equine encephalitis virus, 574
Immunoglobulin fractions
—of early and late immune rabbit sera, 803
Immunoglobulins
—effect of lipopolysaccharide on uptake by peritoneal macrophages, 472
—reactive in serological tests for syphilis, 559
Immunological specificity
—of streptococcal group E cell wall antigen, 653
Immunosuppressive agents
—in intracellular infection, 756
Infants
—incidence of cytomegaloviremia in, 45
Infectious drug resistance
—effect of antibiotic treatment on, 411
Infectivity
—of *M. leprae* related to staining quality, 116
Influenza virus
—inhibited with aerosols of synthetic double-stranded RNA, 323
Interferon
—effect of injections of poly rI:poly rC and endotoxin on, 516
—effect on infection with *C. trachomatis*, 825
—effect on infection with *R. akari*, 819
—elicited by interferon inducers in mice, 318
—produced by human fetal, neonatal, and maternal cells, 671
—produced in mixed lymphocyte cell cultures, 164
Interferon inducer
—sensitivity of *H. hominis* types 1 and 2 to, 847
Interferon inducers
—antiviral protection and interferon elicited by, 318
—effect on infection with *C. trachomatis*, 825
—effect on infection with *R. akari*, 819
Interferon system
—in cells from human tumors and persons predisposed to cancer, 424
Intestinal enzymes
—influence of gastrointestinal microbial flora on, 768
Intestinal strangulation
—in *C. perfringens*-monocontaminated rats, 481
Intracellular infection
—immunosuppressive agents in, 756
Intraspecies immunity
—studied with *D. pneumoniae*, 16
Intravenously injected bacteria
—effect of anti-*S. typhimurium* antibodies on fate of, 154
Ionizing radiation
—Venezuelan equine encephalitis virus inactivated by, 574
Ischemic strangulation
—in *C. perfringens*-monocontaminated rats, 481
Isoelectric focusing
—mycobacterial soluble antigens separated by, 378
Isoniazid
—mechanism of action on *M. bovis* BCG, 530
Isoniazid resistance
—effect on antigenicity of mycobacteria, 524

Kazan 5 strain
—of *T. pallidum*, fatty acid requirements, 723
Keratoconjunctivitis
—ability of *S. flexneri* to evoke, 73
Kittens
—pathogenesis of feline panleukopenia virus in, 833, 838

L cells
—DNA synthesis inhibited by infection with *C. psittaci*, 363
L colonies
—of *S. aureus*, induced with vancomycin, 709
L-form colony production
—correlated with staphylococcal bacteriophage types, 774
Lactose-fermenting bacteria
—infectious drug resistance among, 411
Lambs
—effect of enteropathogenic factor of *C. perfringens*, 100
"Late" antibody
—effect on reticuloendothelial sequestration of bacteria, 154
Latent syphilis
—immunoglobulins reactive in serological tests for, 559
Leptospiral hemolytic anemia of sheep
—cold hemagglutinin associated with, 398
Lethal action
—of colicins, 1
—of sensitive *V. comma* cells, 184
Leukemia patients
—effect of Panton-Valentine leukocidin on leukocytes from, 507
Leukocidin
—effects on leukocytes from patients with leukemia, 507
Leukocyte
—effect of colchicine on metabolism of, 66
Leukocyte hexose monophosphate shunt activity
—stimulated by ascorbic acid, 851
Leukocyte types
—candidacidal activity of, 800
Leukocytes
—action with respect to *C. botulinum* spore germination, 659
—from patients with chronic granulomatous disease, 179
Leukopenia
—in newborn kittens, 833, 838

Lipid extracts
—of group A *Streptococcus*, antitumor activity of, 705
Lipolytic antigens
—from culture filtrates of *L. monocytogenes*, 589
Listeria monocytogenes
—extracellular antigens from, 589
Loci
—conferring nicotinic acid dependence on *S. flexneri*, 500
Lungs
—clearance of *S. marcescens* from, 187
—effect of ethanol on clearance of pneumococci from, 688
Lymphocyte cell cultures
—interferon production in, 164
Lymphoid cells
—in delayed hypersensitivity, 548
Lysostaphin
—compared with cycloserine for induction of wall defective *S. aureus*, 438

Macrophage cytophilic antibody
—in mice, 472
Mammalian neural tissue
—replication of rabies virus in, 606
Mammalian serum
—tuberculostasis in, 553
Marek's disease virus
—pathogenicity and antigenicity of clones from, 295
Maternal cells
—interferon production by, 671
Medium
—effect on H_2O_2 and peroxidase-like activity by *M. pneumoniae*, 80
Medium-dependent activity
—of immune serum on *Brucella*-infected macrophages, 361
Membrane glycolipids
—of *M. pneumoniae*, antisera to, 420
Meningococcal infection
—role of cellular defense mechanism in, 739
Metabolic event
—in bactericidal activity of normal mouse macrophages, 390
Methicillin
—compared with cycloserine for induction of wall-defective *S. aureus*, 438
$MgSO_4$
—*M. smegmatis* protected from ethambutol and streptomycin inhibition by, 496
Mice
—clearance of *S. marcescens* from lungs of, 187
—cytophilic antibody produced in, 637
—effect of antilymphocyte serum on reovirus infection of, 304
—growth of *M. lepraemurium* in diffusion chambers in, 127
—macrophage cytophilic antibody in, 472
—resistance against foot-and-mouth disease virus in, 249
—suppression of immune response by β-3-thienylalanine, 810
—Tacaribe virus infection in, 466
Microbial flora
—in suckling mice given antibacterial drugs, 342
Millipore diffusion chambers
—use in study of in vivo toxin release, 659
Mineral crystal formation
—induced by viral infection of cell cultures, 416
Mink
—antibody responses to goat erythrocytes, 221
Mixed lymphocyte cell cultures
—interferon production in, 164
Molecular heterogeneity
—of specific antigen of *P. pestis*, 498
Molecular weight determination
—of tetanus toxin, 133
Monkey tissues and serum
—factors in causing inhibition of hemagglutination by dengue viruses, 193
Monkeys
—enteropathogenicity of *C. perfringens* in, 167
—respiratory pathogens in, 87
Mononuclear phagocytes
—proliferative abilities in tuberculous lesions, 254
Morphology
—of some *C. albicans* mutants, 141
Mouse cornea
—*P. aeruginosa* infection of, 209
Mouse-protective antigen
—of *B. pertussis*, 243
Mucoid strain
—of *P. aeruginosa*, antiphagocytic effect of slime from, 762
Mumps virus
—rhesus monkeys experimentally infected with, 642
Murine cytomegalovirus
—virulence and attenuation of, 228
Mutations
—affecting nitrogen assimilation by *Y. pestis*, 580
Mycobacteria
—isoniazid-resistant and -susceptible strains, 524
Mycobacterial ribonucleic acid preparations
—effect of polynucleotides on immunogenicity of, 149
Mycobacterial ribosomal protein preparations
—effect of polynucleotides on immunogenicity of, 149
Mycobacterial soluble antigens
—separation by isoelectric focusing, 378
Mycobacterium bovis BCG
—action of isoniazid on, 530
—different from an isoniazid-resistant mutant, 524
Mycobacterium gastri
—phenol-soluble antigens from, 36
Mycobacterium kansasii
—phenol-soluble antigens from, 36
Mycobacterium leprae
—hereditary characteristic among isolates of, 121
—staining quality related to infectivity for mice, 116
Mycobacterium lepraemurium
—growth in cell-impermeable diffusion chambers, 127
Mycobacterium marinum
—phenol-soluble antigens from, 36
Mycobacterium smegmatis
—protection from ethambutol and streptomycin inhibition, 496
Mycobacterium tuberculosis
—effect of L-homoserine on growth of, 328
Mycobacterium tuberculosis H37Ra
—purification of antigens of, 378

Mycobactin
—serum tuberculostasis neutralized by, 553
Mycoplasma arthritidis
—pathogenesis of rat arthritis induced by, 24
Mycoplasma pneumoniae
—antisera to membrane glycolipids of, 420
—H_2O_2 levels and peroxidase-like activity by, 80
—immunogenicity of, 510
—relationship with human respiratory epithelium, 694
Mycotic infections
—importance of complement system in, 521
Myeloperoxidase-H_2O_2-chloride system
—mode of action in the phagocyte, 595

Neisseria gonorrhoeae
—particulate fractions of, 624
Neisseria lactamicus
—differentiated from *N. meningitidis*, 274
—DNA from reassociated with *N. meningitidis* DNA, 274
Neisseria meningitidis
—differentiated from *N. lactamicus*, 274
—DNA from reassociated with *N. lactamicus* DNA, 274
—response of rabbit eye to injection of, 739
Neonatal cells
—interferon production by, 671
Neural tissues
—replication of rabies virus in, 606
Neutrophils
—from patients with chronic granulomatous disease, 179
Newborn mice
—xanthine oxidase induced by virus infections in, 237
Newcastle disease virus
—bacterial infections in mice enhanced by, 488
—effect on infection with *C. trachomatis*, 825
—effect on infection with *R. akari*, 819
NH_4^+
—assimilation by *Y. pestis*, 580
Nicotinic acid dependence
—conferred on *S. flexneri* 2a by two loci, 500
Nitrogen
—assimilation by *Y. pestis*, 580
Nonencapsulated variant
—of *C. neoformans*, 287
Nonhuman primates
—respiratory disease in, 87
Nonspecific factors
—causing inhibition of hemagglutination by dengue viruses, 193
Nonspecific serum inhibitors
—related to serum bacteriostasis of *S. aureus*, 664
Normal mouse macrophages
—bactericidal activity of, 390

O antigens
—of *E. coli*, 702
Oral epithelial surfaces
—selective bacterial adherence to, 567
Oral streptococci
—adherence to oral epithelial surfaces, 567
—cell walls of cariogenic strains, 189
Pancreatic digest of casein
—enterotoxin B production stimulated by, 777
Panton-Valentine leukocidin
—effects on leukocytes from leukemia patients, 507
Parainfluenza type 1 virus
—inhibited with aerosols of synthetic double-stranded RNA, 323
Particulate fractions
—of *N. gonorrhoeae*, 624
Passive immunization
—against *Pseudomonas* infection, 51
Pastel mink
—antibody responses to goat erythrocytes, 221
Pasteurella pestis
—molecular heterogeneity of specific antigen of, 498
Penetration-enhancing factor
—of *Toxoplasma*, 278
Penicillin
—effect on development of a *Chlamydia*, 333
Peroxidase-like activity
—by *M. pneumoniae*, 80
Persons predisposed to cancer
—interferon system in cells from, 424
Petri plate cultures
—growth of *M. lepraemurium* in diffusion chambers in, 127
Phagocyte
—role in host-parasite interactions, 595
Phagocytosis
—effect of 7,12-dimethylbenz[a]anthracene on, 217
Phagocytosis in vitro
—effect of delayed hypersensitivity on, 548
Phenol-soluble antigens
—from *M. kansasii*, *M. gastri*, and *M. marinum*, 36
Physiology
—of some *C. albicans* mutants, 141
Piglets
—*E. coli* pathogenic for, 735
Plasts
—in *N. gonorrhoeae* particulate fractions, 624
Plating method
—to estimate extracellular protein production by staphylococci, 544
Pneumococcal infection
—protection against by a ribosomal preparation, 16
Pneumococcal transformation
—of the lung, effect of ethanol, 688
Pneumococci
—effect of ethanol on clearance from the lungs, 688
Poly I:C
—effect on infection with *C. trachomatis*, 825
—effect on infection with *R. akari*, 819
—effects on selected host responses, 444
—respiratory virus infections inhibited with aerosols of, 323
—sensitivity of *H. hominis* types 1 and 2 to, 847
Poly rI:poly rC
—effect on reticuloendothelial activity, interferon, and antibody production, 516
Polyacrylamide gel disc electrophoresis
—improved method for, 711
Polyamines
—*M. smegmatis* protected from ethambutol and streptomycin inhibition by, 496
Polymorphonuclear leukocytes
—role in pathophysiology of enterotoxemia, 94

Polynucleotides
—effect on mycobacterial RNA and ribosomal protein preparations, 149
Polysaccharide
—constituent of colicins, 1
—of *C. neoformans*, 287
Polysaccharide antigens
—from group A streptococci, 385
—from group E streptococci, 653
Polyserositis
—induced by *E. coli* in swine, 41
Postgrowth broth
—from *V. fetus* isolants, antigenic complexity of, 562
Preparatory disc gel electrophoresis
—for isolation of tetanus toxin, 133
Prostatic fluid
—antibacterial nature of, 494
Protein A
—occurrence in staphylococcal strains, 10
Protein antigen
—antigenic competition with an endotoxic antigen, 308
Protein Hydrolysate Powder
—enterotoxin B production stimulated by, 777
Protein synthesis
—in *M. bovis* BCG, effect of isoniazid, 530
Protoplasts
—disruption by staphylococcal delta hemolysin, 603
Pseudomonas aeruginosa
—antiphagocytic effect of slime from mucoid strains, 762
—mouse cornea infected with, 209
Pseudomonas infection
—passive immunization against, 51
Pulmonary lesions
—caused by tubercle bacilli, effect of radiation, 254
Purines
—role in metabolism of the Reiter treponeme, 727
Pyran
—resistance against foot-and-mouth disease virus induced by, 249
Pyrimidines
—role in metabolism of the Reiter treponeme, 727

R factors
—incidence in bacteria from burn patients, 411
Rabbit eye
—response to injection of *N. meningitidis*, 739
Rabbit ileum
—response to *C. perfringens*, 167, 171
Rabbits
—clearance of *V. fetus* var. *venerealis* in, 815
—effect of altitude on antibody formation in, 358
—effect of enteropathogenic factor of *C. perfringens*, 100
—new herpesvirus isolated from, 350
—Tyzzer's disease of, 429
Rabies virus
—replication in mammalian neural tissues, 606
Radiation
—effect on cell division in tuberculous lesions, 254
Rat arthritis
—role of biological mimicry in pathogenesis of, 24
Rats
—intestinal strangulation in, 481
Reiter treponeme
—fatty acid requirements, 723
—metabolism of common substrates by, 727
Renal function
—absorption and excretion of cephalexin related to, 540
Reovirus
—effect of antilymphocyte serum on mice infected with, 304
Replication
—of Sindbis virus as a function of host age, 268
Respiratory electron chain
—role in bactericidal activity of mouse macrophages, 390
Respiratory illnesses
—pathogenic mechanisms of, 694
Respiratory pathogens
—in monkeys, 87
Respiratory virus infections
—inhibited with aerosols of synthetic double-stranded RNA, 323
Reticuloendothelial activity
—effect of injections of poly rI:poly rC and endotoxin on, 516
Rhesus monkeys
—experimental infection with mumps virus in, 642
—inhibitors of hemagglutination in tissues of, 193
Ribonucleic acid synthesis
—in *M. bovis* BCG, effect of isoniazid, 530
Ribosomal preparation
—protection against pneumococcal infection by, 16
Rickettsia akari
—effect of interferon on infection with, 819
Rickettsial agents
—method for direct staining of, 355

Salmonella typhimurium
—serum sensitivity of smooth C5 strain, 365
Sapphire mink
—antibody responses to goat erythrocytes, 221
Secondary bacterial pneumonias
—factors which incite, 488
Sensitivity arthritides
—role of exogenous antigen in, 715
Serological reactivity
—of purified equine infectious anemia virus, 373
Serological specificity
—of group A streptococcal antigens, 385
Serological tests
—for syphilis, 559
Serratia marcescens
—clearance from lungs of normal mice, 187
Serum
—concentration of cephalexin in, 540
Serum bacteriostasis
—of *S. aureus*, 664
Serum components
—effect on gram-negative bacteria during bactericidal reactions, 107
Serum sensitization
—of complement-resistant gram-negative bacteria, 365
Serum-soft agar technique
—demonstration of capsular types among *S. aureus* strains by, 535

Sheep
—cold hemagglutinin associated with hemolytic anemia of, 398
Sheep erythrocytes
—cytophilic antibody produced in response to, 637
Shigella flexneri
—ability to evoke keratoconjunctivitis, 73
Shigella flexneri 2a
—loci conferring nicotinic acid dependence on, 500
Simian foamy viruses
—taxonomic features of, 793
Sindbis virus infection
—age-dependent resistance of mice to, 268
Slime
—produced by a mucoid strain of *P. aeruginosa*, 762
Slow strains
—of *M. leprae*, 121
Soluble polysaccharides
—of *C. neoformans*, 287
Somatic antigen
—of *V. cholerae*, serological response of γG and γM antibodies to, 803
Specific antigen
—of *P. pestis*, 498
Spheroplasts
—disruption by staphylococcal delta hemolysin, 603
Spinal cord ganglion cultures
—replication of rabies virus in, 606
Squirrel monkeys
—new simian viruses recovered from, 793
Staining quality
—of *M. leprae*, related to infectivity for mice, 116
Staphylococcal bacteriophage types
—correlated with L-form colony production, 774
Staphylococcal delta hemolysin
—disruption of bacterial protoplasts and spheroplasts by, 603
—purification and properties, 449
Staphylococcal enterotoxin B
—chemotactic activity generated by, 94
Staphylococcal growth
—synthetic medium for, 784
Staphylococcal strains
—occurrence of protein A in, 10
Staphylococci
—extracellular protein production by, 544
Staphylococcus aureus
—ability to produce L-form colonies, 774
—encapsulated strains identified by clumping factor reaction, 707
—induction and propagation of wall-defective forms, 438
—induction of L colonies with vancomycin, 709
—Panton-Valentine leukocidin from, 507
—production of delta hemolysin from, 449
—serologically different capsular types of, 535
—serum bacteriostasis of, 664
Staphylococcus aureus Smith 5R
—separation of gamma hemolysin from, 633
Staphylococcus epidermidis
—ability to produce L-form colonies, 774
Streptococcal group E cell wall antigen
—chemical structure and immunological specificity, 653
Streptococci
—cell walls of cariogenic strains, 189
Streptococcus
—antitumor activity of cells of group A, 705
Streptococcus species
—adherence to oral epithelial surfaces, 567
Streptolysin O
—relationship of sulfhydryl groups to activity, 648
Streptomycin inhibition
—protection of *M. smegmatis* from, 496
Suckling mice
—cecal enlargement and microbial flora in, 342
—effect of antilymphocyte serum on Tacaribe virus infection in, 466
Sulfhydryl groups
—role in activity of streptolysin O, 648
Swine
—polyserositis induced by *E. coli* in, 41
Synovium
—lesions in produced by *Erysipelothrix*, 715
Synthetic medium
—for staphylococcal growth and enterotoxin B production, 784
Synthetic polynucleotides
—effect on mycobacterial RNA and ribosomal protein preparations, 149
—effects on selected host responses, 444
Syphilis
—immunoglobulins reactive in serological tests for, 559

Tacaribe virus infection
—effect of antilymphocyte serum on, 466
Tetanus toxin
—amino acid analysis and molecular weight determination of, 133
β-3-Thienylalanine
—effect on antibody synthesis, 810
Thiobarbiturate-positive O antigen
—of *E. coli*, 702
L-Threonine
—required for growth of *Y. pestis*, 580
Toxin release
—in vivo by *C. botulinum* spores, 659
Toxoplasma gondii
—delayed-type hypersensitivity to, 260
—host cell penetration factor of, 278
Toxoplasmosis
—development of delayed-type hypersensitivity during, 260
Tracheal organ culture
—for study of interaction of *M. pneumoniae* and host cell, 694
Transferrin
—role in tuberculostasis in mammalian serum, 553
Transfusion
—cytomegaloviremia in patients after, 159
Transmissible disease
—affecting amebocytes of the European shore crab, 617
Treponema pallidum
—fatty acid requirements of Kazan 5 and Reiter strains, 723
—metabolism of common substrates by Reiter strain, 727

XUM

Tuberculostasis
—in mammalian serum, 553
Tuberculous lesions
—effect of radiation on cell division in, 254
Tyzzer's disease
—isolation of *B. piliformis* from rabbits with, 429

Urine
—concentration of cephalexin in, 540

Vancomycin
—for induction of L colonies of *S. aureus*, 709
Venezuelan equine encephalitis virus
—inactivated by ionizing radiation, 574
Venezuelan equine encephalitis virus vaccine
—preparation of, 574
Verder and Evans "O" serotypes
—correlation with protective components of *Pseudomonas*, 51
Vibrio cholerae
—response of γG and γM antibodies to somatic antigen of, 803
—two cholera toxin-containing preparations of, 747
Vibrio comma cells
—initial interaction with vibriocin, 184
Vibrio fetus immunogen
—purification and characterization, 562
Vibrio fetus var. *venerealis*
—infection of vaccinated heifers with, 405
—location within the endometrium of the cow, 854
—rate of clearance in rabbits, 815
Vibriocin
—initial interaction with *V. comma* cells, 184
Viral infection
—mineral crystal formation in cell cultures induced by, 416
—xanthine oxidase induced in mice by, 237
Virulence
—in *Yersinia*, 59
—of murine cytomegalovirus, 228
—of some *C. albicans* mutants, 141

Xanthine oxidase
—induction by virus infections in newborn mice, 237

Yersinia
—effect of Ca^{2+} on DNA synthesis in, 59
Yersinia pestis
—assimilation of nitrogen by, 580

Infection and Immunity

Volume 4

Baltimore, Md. 21202

ROBERT A. DAY, *Managing Editor, 1913 I St., N.W., Washington, D C. 20006*

EX OFFICIO

MORRIS F. SHAFFER, President (1971–1972)

R. G. E. MURRAY, Vice-President (1971–1972)

DONALD E. SHAY, Secretary

T. J. CARSKI, Treasurer

Infection and Immunity, a publication of the American Society for Microbiology, 1913 I St., N.W., Washington D.C. 20006 is devoted to the advancement and dissemination of fundamental knowledge concerning 1) pathogenic microorganisms and infection, 2) ecology, epidemiology and host factors, 3) antimicrobial agents and chemotherapy, and 4) immunology. *Infection and Immunity* is published monthly, and the twelve numbers are divided into two volumes per year. The subscription price is $40 (foreign, $41) per year. Single copies are $4.00 (foreign, $4.25). Members of the American Society for Microbiology may receive *Infection and Immunity* as part of their dues. Correspondence relating to reprints, defective copies, availability of back issues, lost or late proofs, disposition of submitted manuscripts, and general editorial matters should be directed to the ASM Publications Office, 1913 I St., N.W., Washington, D.C. 20006. Correspondence from ASM members relating to membership dues, member subscriptions, changes of address, incorrect address, incorrect journals, etc., should be directed to the Executive Secretary American Society for Microbiology, 1913 I St., N.W., Washington, D.C. 20006. Nonmembers of the Society should write to The Williams & Wilkins Co., 428 E. Preston St., Baltimore, Md. 21202, regarding institution of nonmember subscriptions and nonreceipt of journals. Published monthly by the ASM at 428 E. Preston St. Baltimore, Md. 21202. Second class postage paid at Baltimore,, Md., and at additional mailing offices.

Made in the United States of America.

Volume 4 **Contents for July** Number 1

Pathogenic Mechanisms, Ecology, and Epidemiology

Complement-Fixing Antigens in Burkitt Lymphoma Cell Lines. KENNETH J. MCCORMICK, WAYNE A. STENBACK, DAVID M. MUMFORD, AND JOHN J. TRENTIN.... 20
Characteristics of Complement-Dependent Release of Phospholipid from *Escherichia coli*. LAWRENCE A. WILSON AND JOHN K. SPITZNAGEL..... 23
Pathogenicity of *Dermatophilus* and *Geodermatophilus*. MORRIS A. GORDON AND ULA PERRIN..... 29
Influence of Glucose Levels on the In Vitro Phagocytosis of Bacteria by Human Neutrophils. CAREL J. VAN OSS..... 54
Characteristics of a Bacteriophage-Infected Strain of *Pasteurella pestis* Isolated from a Human Case of Plague. DANIEL N. HARRISON, DAN C. CAVANAUGH, JAMES H. RUST, JR., AND JOHN D. MARSHALL, JR..... 85

Antimicrobial Agents and Chemotherapy

Inhibition by Rifampin of African Swine Fever Virus Replication in Tissue Culture. A. H. DARDIRI, H. L. BACHRACH, AND E. HELLER..... 34
Epicillin: In Vitro Laboratory Studies. H. BASCH, R. ERICKSON, AND H. GADEBUSCH.. 44
Epicillin: Experimental Chemotherapy, Pharmacodynamics, and Susceptibility Testing. H. GADEBUSCH, G. MIRAGLIA, F. PANSY, AND K. RENZ..... 50
L-Forms of *Pseudomonas aeruginosa*. EARL G. HUBERT, CLARENCE S. POTTER, THOMAS J. HENSLEY, MORRIS COHEN, GEORGE M. KALMANSON, AND LUCIEN B. GUZE..... 60
Light and Scanning-Beam Electron Microscopy of Wall-Defective *Staphylococcus aureus* Induced by Lysostaphin. CHATRCHAI WATANAKUNAKORN, ROBERT J. FASS, ALBERT S. KLAINER, AND MORTON HAMBURGER..... 73

Immunology

Effect of Friend Leukemia Virus and Rowson-Parr Virus on Immunological Maturation of Mice. M. BENDINELLI..... 1
Some Physical Properties of K Antigens of *Escherichia coli* Related to Their Biological Activity. C. J. HOWARD AND A. A. GLYNN..... 6
Specific Inactivation of the Fourth Complement Component. I. In Vivo Studies. JOERG A. JENSEN, MARY C. GARCES, AND ELENA IGLESIAS..... 12
Cross-Protection in Hamsters Immunized with Group A Arbovirus Vaccines. FRANCIS E. COLE, JR., AND ROBERT W. MCKINNEY..... 37
Cross-Protective Antigens of Group A Streptococci Types 3 and 31 and Types 46 and 51. WILLIAM K. HARRELL, HELEN ASHWORTH, AND ROBERT E. DAVIS II..... 79

Volume 4 **Contents for August** Number 2

Bacterial and Mycotic Infections

Effects of Intrarenal Inoculation of *Staphylococcus aureus* on Mice. ISAMU KONDO, SHŌGO MASUDA, KŌZŌ KIMURA, KŌSEI KUROSAKA, AND NORIKO HASEGAWA..... 103

Viral Infections

Cytochemical and Immunofluorescence Study of an Oncogenic Avian Adenovirus (CELO) in Mammalian Cell Cultures. LOUISE T. MILLER AND VANCE J. YATES.... 173

Pathogenic Mechanisms, Ecology, and Epidemiology

Biological Characteristics of *Clostridium perfringens* Type A Enterotoxin. RAYMOND L. STARK AND CHARLES L. DUNCAN..... 89
Distribution of Lysosomal Enzymes, Cationic Proteins, and Bactericidal Substances in

Subcellular Fractions of Human Polymorphonuclear Leukocytes. I. R. H. WELSH AND J. K. SPITZNAGEL 97

Production of Extracellular Enzymes and Enterotoxins A, B, and C by *Staphylococcus aureus*. AUDREY W. JARVIS AND R. C. LAWRENCE 110

Rapid Detection and Quantitative Estimation of Type A Botulinum Toxin by Electroimmunodiffusion. CAROL A. MILLER AND ARTHUR W. ANDERSON 126

Employment of Tuberculostasis in Serum-Agar Medium for the Study of Production and Activity of Mycobactin. IVAN KOCHAN, DAVID L. CAHALL, AND CAROLE A. GOLDEN 130

Effect of Endotoxin on Pyruvate Kinase Activity in Mouse Liver. IRVIN S. SNYDER, MICHAEL DETERS, AND JAMES INGLE 138

Evidence for a Bilayer Structure in Gram-Negative Lipopolysaccharide: Relationship to Toxicity. J. W. SHANDS, JR. 167

Antimicrobial Agents and Chemotherapy

In Vitro Antifungal Activity of Clotrimazole (Bay b 5097). SMITH SHADOMY 143

Immunology

Characterization of Antigens from the Yeast Phase of *Histoplasma capsulatum*. JOHN P. GARCIA AND DEXTER H. HOWARD 116

Serological Cross-Reaction Between Lipids of *Mycoplasma pneumoniae* and *Mycoplasma neutrolyticum*. GEORGE E. KENNY 149

Cross-Neutralization of Leptospiral Hemolysins from Different Serotypes. A. D. ALEXANDER, G. WOOD, F. YANCEY, R. J. BYRNE, AND R. H. YAGER 152

Bactericidal Antibody Response in the Pacific Hagfish, *Eptatretus stoutii*. RONALD T. ACTON, PETER F. WEINHEIMER, W. H. HILDEMANN, AND E. EDWARD EVANS 160

Volume 4 Contents for September Number 3

Bacterial Infections

Intracellular Location of *Treponema pallidum* (Nichols Strain) in the Rabbit Testis. JOHN A. SYKES AND JAMES N. MILLER 307

Ultraviolet Light Inactivation and Photoreactivation in the Mycobacteria. HUGO L. DAVID, WILBUR D. JONES, JR., AND CAROL M. NEWMAN 318

Viral Infections

Lytic and Turbid Plaque-Type Mutants of Lymphocytic Choriomeningitis Virus as a Cause of Neurological Disease or Persistent Infection. JOHN HOTCHIN, WILLIAM KINCH, AND LOIS BENSON 281

Pathogenic Mechanisms, Ecology, and Epidemiology

Uridinediphosphogalactose-4-Epimerase Deficiency in *Salmonella typhimurium* and Its Correction by Plasmid-Borne Galactose Genes of *Escherichia coli* K-12: Effects on Mouse Virulence, Phagocytosis, and Serum Sensitivity. V. KRISHNAPILLAI 177

Differential Action of a Streptococcal Bacteriocin on Mycoplasmas and Microbial L-Forms. H. J. HARWICK, J. Z. MONTGOMERIE, G. M. KALMANSON, E. G. HUBERT, C. S. POTTER, AND L. B. GUZE 194

Utilization of Palmitic Acid by *Mycobacterium avium*. CHARLOTTE MCCARTHY 199

Immunobiological Activity of Cell Wall Antigens of *Staphylococcus aureus*. J. J. KOWALSKI AND DAVID T. BERMAN 205

Histamine Release in the Dog After Leukocyte Lysate Injection. MICHAEL T. KELLY,

RICHARD E. BRASHEAR, R. RUSSELL MARTIN, AND ARTHUR WHITE 228
Reduced Germination of *Clostridium botulinum* Type A Spores In Vitro by Polymorphonuclear Leukocytes from Chronic Granulomatous Disease. JON B. SUZUKI, NICHOLAS GRECZ, AND DOROTHY WINDHORST 232
Cellular Reaction in the Footpad and Draining Lymph Nodes of Mice Induced by Mycobacterial Fractions and BCG Bacilli. A. BEKIERKUNST, I. S. LEVIJ, E. YARKONI, E. VILKAS, AND E. LEDERER 245
Immune Response to Sheep Red Blood Cells in Mice Pretreated with Mycobacterial Fractions. A. BEKIERKUNST, E. YARKONI, I. FLECHNER, S. MORECKI, E. VILKAS, AND E. LEDERER 256
Ability of *Veillonella* and *Neisseria* Species to Attach to Oral Surfaces and Their Proportions Present Indigenously. W. F. LILJEMARK AND R. J. GIBBONS 264
Renal Lysozyme Levels in Animals Developing "Sterile Pyelonephritis." W. W. EUDY, S. E. BURROUS, AND F. W. SIGLER 269
Mechanisms and Genetics of Resistance to Sodium Lauryl Sulfate in Strains of *Shigella* and *Escherichia coli*. L. M. CORWIN, SARA W. ROTHMAN, ROSALIND KIM, AND L. A. TALEVI 287

Antimicrobial Agents and Chemotherapy

Immunosuppression with *cis*-Platinum (II) Diamminodichloride: Effect on Antibody Plaque-Forming Spleen Cells. AMANULLAH KHAN AND JOSEPH M. HILL 320

Immunology

Clinical Application of Immunofluorescence. III. Identification of Lancefield Group B Streptococci. THOMAS B. SMITH 189
Hemagglutinin from the L Phase of *Neisseria meningitidis* Group B, with Observations on a Serum Inhibitor. YORK E. CRAWFORD, ROBERT P. NALEWAIK, RALPH I. LYTLE, AND JOAN L. O'CONNELL 212
Specific Secondary Biological Properties of Purified Rabbit Immunoglobulin M and Immunoglobulin G Antibodies to *Brucella abortus* and *Bordetella pertussis*. MARTIN L. SCHULKIND, MENDEL HERZBERG, AND JOHN B. ROBBINS 220
Media Exchange Method for Demonstrating Killing of L-Phase Variants in Solid Media by Normal Human Serum. ZELL A. MCGEE, HILDA B. RATNER, AND M. GLENN KOENIG 237
Effect of β-3-Thienylalanine on Antibody Synthesis. V. Immunosuppression in Mice by Short Diet and Drug Treatments. ALDO MISEFARI AND MARIANO F. LA VIA 240
Immunogenicity of R Factor-Carrying *Salmonella*. H. JAROLMEN, D. HEWEL, AND E. KAIN 274
United States Standard Diphtheria Toxin for the Schick Test and the Erythema Potency Assay for the Schick Test Dose. MICHAEL F. BARILE, ROBERT W. KOLB, AND MARGARET PITTMAN 295
Effect of Adrenocorticosteroid on Glucose Metabolism in BCG-Sensitized Alveolar Macrophages. CHARLES E. MCCALL, JAMES V. VOLK, M. ROBERT COOPER, AND LAWRENCE R. DECHATELET 315

Volume 4 **Contents for October** **Number 4**

Bacterial and Mycotic Infections

Chronic Proliferative Arthritis of Mice Induced by *Mycoplasma arthritidis*. I. Induction of Disease and Histopathological Characteristics. B. C. COLE, J. R. WARD, R. S. JONES, AND J. F. CAHILL 344
Inapparent Respiratory Infection of Inbred Swiss Mice with Sulfadiazine-Resistant, Iodine-Negative Chlamydiae. F. A. ATA, E. H. STEPHENSON, AND J. STORZ 506
Influence of Oxidation and Reduction on the Acid-Fastness of Mycobacteria. W. NYKA 513

Viral Infections

Intracerebral Inoculation of Rhesus Monkeys with a Strain of Measles Virus Isolated from a Case of Subacute Sclerosing Panencephalitis. HEINZ P. SCHUMACHER, PAUL ALBRECHT, RONALD G. CLARK, RUTH L. KIRSCHSTEIN, AND NICOLA M. TAURASO... 419

Pathogenic Mechanisms, Ecology, and Epidemiology

Hemopoietic Colony-Forming Cell Responses in Mice Infected with Ectromelia Virus. T. A. MCNEILL AND M. KILLEN... 323
Role of Hemopoietic Colony-Forming Cell Responses in the Pathogenesis of Ectromelia. T. A. MCNEILL AND M. KILLEN... 331
In Vitro Induction of Nonspecific Resistance in Macrophages by Specifically Sensitized Lymphocytes. JAMES L. KRAHENBUHL AND JACK S. REMINGTON... 337
Epidemiology of a Herpesvirus of Turkeys: Possible Sources and Spread of Infection in Turkey Flocks. R. L. WITTER AND J. J. SOLOMON... 356
Purification of Pneumolysin. CLARE N. SHUMWAY AND SEYMOUR J. KLEBANOFF... 388
Age-Related Susceptibility to *Haemophilus influenzae* Type b Disease in Rabbits. RACHEL SCHNEERSON AND JOHN B. ROBBINS... 397
Enzyme Activities of the Livers of Mice Infected with *Salmonella typhimurium*. IRVIN S. SNYDER... 411
Infectivity and Virulence of Nonpesticinogenic *Pasteurella pestis*. M. J. SURGALLA AND E. D. BEESLEY... 416
Eperythrozoon coccoides. I. Effect on the Interferon Response in Mice. L. A. GLASGOW, T. ODUGBEMI, P. DWYER, AND A. L. RITTERSON... 425
Production of Staphylococcal Alpha Toxin. I. Relationship Between Cell Growth and Toxin Formation. JAMES L. DUNCAN AND GLORIA J. CHO... 456
Effect of Infection and Endotoxicosis on Plasma Lactate Dehydrogenase Isozymes in White Rats. T. LARRY HALE AND JOHN M. WOODWARD... 468
Enteropathogenicity of *Escherichia coli*. I. Evaluation in Mouse Intestinal Loops. KANNIKAR PUNYASHTHITI AND RICHARD A. FINKELSTEIN... 473
Inhibition of *Pseudomonas aeruginosa* by Hyperbaric Oxygen. I. Sulfonamide Activity Enhancement and Reversal. LEONARD M. PAKMAN... 479
Inhibition of *Pseudomonas aeruginosa* by Hyperbaric Oxygen. II. Ultrastructural Changes. JUNIUS M. CLARK AND LEONARD M. PAKMAN... 488
Anaerobic Bacteria on the Mucosal Epithelium of the Murine Large Bowel. DWAYNE C. SAVAGE, JULIA S. MCALLISTER, AND C. PATRICK DAVIS... 492
Separation of Two Hemolysins from *Aeromonas hydrophila* by Isoelectric Focusing. BENGT WRETLIND, ROLAND MÖLLBY, AND TORKEL WADSTRÖM... 503

Antimicrobial Agents and Chemotherapy

Effects of an Interferon Inducer, Poly I:C, on Acute Ocular Infection Produced by Intracameral Inoculation of *Toxoplasma gondii*. J. O. OH AND G. R. O'CONNOR... 407
Effect of Actinomycin D on the Yield of Lymphocytic Choriomeningitis Virus in Baby Hamster Kidney Cells. TREVOR L. STANWICK AND B. E. KIRK... 511

Immunology

Effect of Alkali-Treated Lipopolysaccharide on Erythrocyte Membrane Stability. I. ČIZNÁR AND J. W. SHANDS, JR.... 362
Neutralizing Antibodies to Cytomegaloviruses in Normal Simian and Human Sera. YOICHI MINAMISHIMA, BETTIE J. GRAHAM, AND MATILDA BENYESH-MELNICK... 368
Serum-Mediated Resistance Induced with Immunogenic Preparations of *Salmonella typhimurium*. MARTIN R. VENNEMAN AND L. JOE BERRY... 374
Cell-Mediated Resistance Induced with Immunogenic Preparations of *Salmonella typhimurium*. MARTIN R. VENNEMAN AND L. JOE BERRY... 381
Adjuvant Action of Bacterial Endotoxin and Colchicine on Antibody Formation in the Hamster. KATHARINE MERRITT... 393
Macrophage Cytophilic Antibody in Mice: Mechanism of Action of Bacterial Lipopolysaccharide on the Uptake of Immunoglobulins by Mouse Peritoneal Cells.

IAN R. TIZARD 402
Chronic Proliferative Arthritis of Mice Induced by *Mycoplasma arthritidis*. II. Serological Responses of the Host and Effect of Vaccines. B. C. COLE, J. R. WARD, L. GOLIGHTLY-ROWLAND, AND G. A. TRAPP 431
Micro Complement Fixation Assay for Type-Specific Group A Streptococcal Antibody. M. K. WITTNER AND EUGENE N. FOX 441
Specific Inactivation of the Fourth Complement Component. II. In Vitro Studies. MARY C. GARCES, JOERG A. JENSEN, AND ELENA IGLESIAS 446
Influence of *Escherichia coli* Lipopolysaccharide on Histamine-Forming Capacity and Antibody Formation in Lymphoid Tissues. J. B. COVERT AND A. ZARKOWER 452
Contribution of Humoral and Cellular Factors to the Resistance to Experimental Infection by *Pseudomonas aeruginosa* in Mice. I. Interaction Between Immunoglobulins, Heat-Labile Serum Factors, and Phagocytic Cells in the Killing of Bacteria. ANN B. BJORNSON AND J. GABRIEL MICHAEL 462
Anti-Immunoglobulin G Hemagglutination-Inhibition Test for Influenza. NICHOLAS HAHON, JAMES A. BOOTH, AND HERBERT L. ECKERT 508
Migration Inhibition of Mouse Macrophages by *Brucella* Antigens. PAUL L. SANDOK, RONALD D. HINSDILL, AND RALPH M. ALBRECHT 516

Volume 4 Contents for November Number 5

Bacterial and Mycotic Infections

Interaction of *Actinomyces* Organisms with Cationic Polypeptides. I. Histochemical Studies of Infected Human and Animal Tissues. JAMES J. CRAWFORD 632

Viral Infections

Effect of Progesterone and Testosterone on Interferon Production and on the Viral Infection-Enhancing Activity of Estrone and Hydrocortisone. DAVID J. GIRON, JEROME P. SCHMIDT, AND FRANK F. PINDAK 537
Classification of North American Porcine Enteroviruses: a Comparison with European and Japanese Strains. H. W. DUNNE, J. T. WANG, AND ELIZABETH H. AMMERMAN .. 619
Antiviral Immune Cytolysis at an Early Stage of Paramyxovirus Infection. MONROE D. EATON AND ANTHONY R. SCALA 642

Pathogenic Mechanisms, Ecology, and Epidemiology

In Vitro Attachment of Radioactive Endotoxins to Lysosomes. C. BONA, L. CHEDID, AND A. LAMENSANS 532
Product of *Staphylococcus aureus* Responsible for the Scalded-Skin Syndrome. F. A. KAPRAL AND MARGARET M. MILLER 541
Activation of Lysosomal Enzymes in Rabies-Infected Tissue Culture Cells Without Accompanying Cytopathic Effect. ANA M. DIAZ, FRANCISCO J. DIAZ, PAMELA YAGER, AND GEORGE M. BAER 546
Enhanced Toxicity for Mice of Combinations of Antibiotics with *Escherichia coli* Cells or *Salmonella typhosa* Endotoxin. W. C. ROSE AND S. G. BRADLEY 550
Tissue Amino Acid Flux After Exposure of Rats to *Diplococcus pneumoniae*. R. W. WANNEMACHER, JR., M. C. POWANDA, R. S. PEKAREK, AND W. R. BEISEL 556
Identification of Enterotoxin E. MERLIN S. BERGDOLL, CONCORDIA R. BORJA, RUTH N. ROBBINS, AND KARL F. WEISS 593
Biochemistry of *Vibrio cholerae* Virulence. II. Skin Permeability Factor/Cholera Enterotoxin Production in a Chemically Defined Medium. LYNN T. CALLAHAN III, RICHARD C. RYDER, AND STEPHEN H. RICHARDSON 611
Electron Microscopic Localization of Alpha Toxin Within the Staphylococcal Cell by Ferritin-Labeled Antibody. J. R. COULTER AND T. M. MUKHERJEE 650
Compact-Type Growth of *Staphylococcus epidermidis* Strains in Serum-Soft Agar. KOSAKU YOSHIDA, MELVIN R. SMITH, AND YOSHIKO NAITO 656
Proportions of *Streptococcus sanguis*, an Organism Associated with Subacute Bacterial

Endocarditis, in Human Feces and Dental Plaque. J. VAN HOUTE, H. V. JORDAN, AND S. BELLACK 658
Characterization of 3-*O*-Methylmannose from *Coccidioides immitis*. JOHN F. PORTER, ELEANOR R. SCHEER, AND ROBERT W. WHEAT 660

Antimicrobial Agents and Chemotherapy

Comparison Between the Polymyxins and Gentamicin in Preventing Endotoxin-Induced Intravascular Coagulation and Leukopenia. JAMES J. CORRIGAN, JR., AND BOBBIE M. BELL 563

Immunology

Experimental Salmonellosis: Hypersensitivity to Cell Wall Lipopolysaccharide and Anti-Infectious Resistance of Mice Infected with *Salmonella*. MASAYA KAWAKAMI, YOSHIHIKO HARA, AND NOBUTAKA OSAWA 519
Antigen-Antibody Crossed Electrophoresis (Laurell) Applied to the Study of the Antigenic Structure of *Candida albicans*. NILS H. AXELSEN 525
Characterization of an Equine Infectious Anemia Antigen Extracted from Infected Horse Spleen Tissue. N. L. NORCROSS AND L. COGGINS 528
Correlation of Immunological Responsiveness with Lymphocyte Changes in Chickens Infected with Marek's Disease. DONALD L. EVANS AND LOYD T. PATTERSON 567
Cell-Free Passive Transfer of Delayed Hypersensitivity to Chemicals in Guinea Pigs. DENIS R. BURGER AND WAYBURN S. JETER 575
Enhancement of Phagocytosis by Interferon-Containing Preparations. KUN-YEN HUANG, ROBERT M. DONAHOE, FRANCIS B. GORDON, AND HARRY R. DRESSLER 581
Passive Protection of Mice Against Intraperitoneally Injected *Vibrio cholerae* by γG and γM Antibody. ROBERT M. PIKE AND CLEO H. CHANDLER 589
Type-Specific Antigens of Group B Type Ic Streptococci. HAZEL W. WILKINSON AND R. G. EAGON 596
Lymphocyte-Mediated Cellular Immunity in Histoplasmosis. D. H. HOWARD, V. OTTO, AND R. K. GUPTA 605

Volume 4 **Contents for December** **Number 6**

Viral Infections

Antibodies Produced by Rabbits Immunized with Visna Virus. SEUNG C. KARL AND HALLDOR THORMAR 715
Inhibition of Influenza Virus and Interferon Response Intranasally with Statolon. W. J. KLEINSCHMIDT AND FRANK STREIGHTOFF 738

Pathogenic Mechanisms, Ecology, and Epidemiology

Immunity in Experimental Salmonellosis. II. Basis for the Avirulence and Protective Capacity of *gal* E Mutants of *Salmonella typhimurium*. R. GERMANIER AND E. FÜRER 663
Toxic Membrane Fractions from *Mycoplasma fermentans*. MICHAEL G. GABRIDGE AND WILLIAM H. MURPHY 678
Characteristics of Streptolysin O Action. TERRY D. OBERLEY AND JAMES L. DUNCAN 683
Influence of Antibiotics or Certain Intestinal Bacteria on Orally Administered *Candida albicans* in Germ-Free and Conventional Mice. J. DERRELL CLARK 731
Effect of Diuresis on *Staphylococcus aureus* Kidney Infections in Mice. DOLORES FURTADO 742
Response of Interferon-Treated Cells to Diphtheria Toxin. THOMAS J. MOEHRING, JOAN M. MOEHRING, AND WARREN R. STINEBRING 747
Characteristics of *Escherichia coli* Serotypes in the Yanomama, a Primitive Indian Tribe of South America. W. C. EVELAND, W. J. OLIVER, AND J. V. NEEL 753

Immunopathology of Experimental *Mycoplasma pneumoniae* Disease. WALLACE A. CLYDE, JR. 757
Electron Microscopy of Group A Streptococci After Phagocytosis by Human Monocytes. ALAN D. GLICK, RICHARD A. GETNICK, AND ROGER M. COLE 772
Growth Advantage of Fast Lactose-Fermenting Mutants of Slow Lactose-Fermenting Coliform Bacteria in Gnotobiotic Rats and Mice. TRACY D. WILKINS AND JACQUELINE A. FRANZESE 780

Immunology

Cell-Mediated Hypersensitivity in Rabbits Infected with *Trypanosoma brucei* and *Trypanosoma rhodesiense*. I. R. TIZARD AND M. A. SOLTYS 674
Immunogenicity of Various Mycobacteria and the Corresponding Levels of Cross-Protection Developed Between Species. F. M. COLLINS 688
Cellular Immunity In Vitro: Migration Inhibition and Phagocytosis. RUTH NETA AND S. B. SALVIN 697
Cytotoxicity of Rabbit Blood for *Listeria monocytogenes*. LEONARD D. SHULTZ AND M. S. WILDER 703
Serum Factors and the Reticuloendothelial Uptake of *Staphylococcus aureus*. II. Role of a Zymosan-Adsorbable Serum Opsonin. STEPHEN K. FELTS, L. LOCKIE TREANOR, JAY S. GOODMAN, AND M. GLENN KOENIG 709
Effect of an Immunosuppressive Agent, Cyclophosphamide, on Chronic Lactic Dehydrogenase Virus Viremia of Mice. H. G. DUBUY, M. WORTHINGTON, AND M. L. JOHNSON 720
Characterization of the Group Antigen of *Chlamydia trachomatis*. SANITTAR P. DHIR, GEORGE E. KENNY, AND J. T. GRAYSTON 725
Protective Role of Smooth Lipopolysaccharide in the Serum Bactericidal Reaction. B. L. REYNOLDS AND H. PRUUL 764

XUM

INDEX TO DATE OF ISSUE

Month	Date of Issue	Pages
July	8 July 1971	1–88
August	10 August 1971	89–176
September	16 September 1971	177–322
October	8 October 1971	323–518
November	5 November 1971	519–662
December	9 December 1971	663–782

ERRATUM

Type-Specific Antigens of Group B Type Ic Streptococci

HAZEL W. WILKINSON AND R. G. EAGON

Bacteriology Section, Center for Disease Control, Atlanta, Georgia 30333, and Department of Microbiology, University of Georgia, Athens, Georgia 30601

Volume 4, no. 5, page 597, column 1, line 22: Change "(0.03 ml)" to "(0.3 ml)."
Page 598, column 1, line 3 from the bottom: Change "type Ic" to "type Ib."

U. S. POSTAL SERVICE

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION

(Act of August 12, 1970: Section 3685, Title 39, United States Code)

SEE INSTRUCTIONS ON PAGE 2 (REVERSE)

1. TITLE OF PUBLICATION: INFECTION AND IMMUNITY

2. DATE OF FILING: 30 September 1971

3. FREQUENCY OF ISSUE: Monthly

4. LOCATION OF KNOWN OFFICE OF PUBLICATION (Street, city, county, state, ZIP code) (Not printers): Mount Royal and Guilford Aves., Baltimore, Maryland 21202

5. LOCATION OF THE HEADQUARTERS OR GENERAL BUSINESS OFFICES OF THE PUBLISHERS (Not printers): 4715 Cordell Ave., Bethesda, Maryland 20014

6. NAMES AND ADDRESSES OF PUBLISHER, EDITOR, AND MANAGING EDITOR

PUBLISHER (Name and address): American Society for Microbiology, 4715 Cordell Ave., Bethesda, Md. 20014

EDITOR (Name and address): Erwin Neter, State University of New York at Buffalo and Children's Hospital, 219 Bryant St., Buffalo, N.Y. 14222

MANAGING EDITOR (Name and address): Robert A. Day, 4011 Rickover Rd., Silver Spring, Maryland 20902

7. OWNER (If owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given.)

NAME	ADDRESS
American Society for Microbiology	4715 Cordell Ave., Bethesda, Md. 20014

8. KNOWN BONDHOLDERS, MORTGAGEES, AND OTHER SECURITY HOLDERS OWNING OR HOLDING 1 PERCENT OR MORE OF TOTAL AMOUNT OF BONDS, MORTGAGES OR OTHER SECURITIES (If there are none, so state)

NAME	ADDRESS
None	

9. FOR OPTIONAL COMPLETION BY PUBLISHERS MAILING AT THE REGULAR RATES (Section 132.121, Postal Service Manual)

39 U. S. C. 3626 provides in pertinent part: "No person who would have been entitled to mail matter under former section 4359 of this title shall mail such matter at the rates provided under this subsection unless he files annually with the Postal Service a written request for permission to mail matter at such rates."

In accordance with the provisions of this statute, I hereby request permission to mail the publication named in Item 1 at the reduced postage rates presently authorized by 39 U. S. C. 3626.

(Signature and title of editor, publisher, business manager, or owner)

10. FOR COMPLETION BY NONPROFIT ORGANIZATIONS AUTHORIZED TO MAIL AT SPECIAL RATES (Section 132.122, Postal Service Manual) (Check one)

The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes: ☒ Have not changed during preceding 12 months ☐ Have changed during preceding 12 months (If changed, publisher must submit explanation of change with this statement.)

11. EXTENT AND NATURE OF CIRCULATION	AVERAGE NO. COPIES EACH ISSUE DURING PRECEDING 12 MONTHS	ACTUAL NUMBER OF COPIES OF SINGLE ISSUE PUBLISHED NEAREST TO FILING DATE
A. TOTAL NO. COPIES PRINTED (Net Press Run)	6,172	6,036
B. PAID CIRCULATION 1. SALES THROUGH DEALERS AND CARRIERS, STREET VENDORS AND COUNTER SALES		
2. MAIL SUBSCRIPTIONS	4,223	4,617
C. TOTAL PAID CIRCULATION	4,223	4,617
D. FREE DISTRIBUTION BY MAIL, CARRIER OR OTHER MEANS 1. SAMPLES, COMPLIMENTARY, AND OTHER FREE COPIES	22	38
2. COPIES DISTRIBUTED TO NEWS AGENTS, BUT NOT SOLD	0	0
E. TOTAL DISTRIBUTION (Sum of C and D)	4,245	4,645
F. OFFICE USE, LEFT-OVER, UNACCOUNTED, SPOILED AFTER PRINTING	1,927	1,391
G. TOTAL (Sum of E & F - should equal net press run shown in A)	6,172	6,036

I certify that the statements made by me above are correct and complete.

(Signature of editor, publisher, business manager, or owner) Robert A Day

SUBJECT INDEX

Acid-fastness
—of mycobacteria, 513
Actinomyces infections
—histochemical studies of, in human and animal tissues, 632
Actinomyces organisms
—interaction with cationic polypeptides, 632
Actinomycin D
—effect on yield of choriomeningitis virus, 511
Adjuvant action
—of antibody formation in hamsters, 393
—of bacterial endoxin and colchicine, 393
Adrenocorticosteroid
—effect on glucose metabolism in BCG-sensitized macrophages, 315
Aeromonas hydrophila
—separation of two hemolysins from, 503
African swine fever virus
—replication inhibited by rifampin, 34
Agar-plate diffusion test
—for evaluation of tuberculostasis, 130
Agglutination-inhibiting activity
—of *E. coli* K antigens, 6
Alkali
—treatment of lipopolysaccharide by, 362
Alpha toxin
—localization of, within the staphylococcal cell, 650
—synthesis and release of, 456
Alveolar macrophages
—effect of adrenocorticosteroid on glucose metabolism in, 315
American sera
—reactivity with Burkitt cell lines, 20
Amino acid flux
—after infection with *D. pneumoniae*, 556
Amphotericin B
—antifungal activity compared with clotrimazole, 143
Ampicillin
—activity compared with epicillin, 44
Anaerobic bacteria
—of the murine large bowel, 492
Antibiotics
—effect on *Candida albicans*-infected mice, 731
—with *E. coli* cells or *S. typhosa* endotoxin, 550
Antibodies
—of visna virus, 715
—to cytomegaloviruses in sera, 368
Antibody
—formation in lymphoid tissues, 452
Antibody response
—relationship to cellular reaction induced by cord factor, 256
Antibody synthesis
—effect of β-3-thienylalanine on, 240
Antifungal activity
—of clotrimazole, 143
Antigen-antibody crossed electrophoresis procedure
—in study of *Candida albicans*, 525
Antigens
—from yeast phase of *H. capsulatum*, 116
—responsible for serological specificity of type Ic streptococci, 596
Anti-immunoglobulin G serum
—in hemagglutination-inhibition test for influenza, 508
Anti-infectious resistance
—of mice infected with *Salmonella*, 519
Antilisterial activity
—of rabbit blood, 703
Antimicrobial spectrum
—of epicillin, 44
Anti-*Salmonella* resistance
—cellular nature of, 381
—mediated by cellular factors, 374
Anti-type b antibodies
—occurrence in newborn rabbits, 397
Antiviral serum (Ab)
—antiviral immune cytolysis induced by, 642
Arthritis
—histopathological characteristics of, 344
—of mice induced by *Mycoplasma arthritidis*, 344, 431
Avian adenovirus
—studied in mammalian cell cultures, 173

Bacteria
—effect of glucose on phagocytosis by neutrophils, 54
Bacteria (anaerobic)
—of the murine large bowel, 492
Bacterial endotoxin
—adjuvant action of, 393
Bactericidal antibody response
—in *E. stoutii*, 160
Bactericidal substance
—of human polymorphonuclear leukocytes, 97
Bacteriocin
—tested for growth-inhibiting activity, 194
Bacteriophage-infected strain
—of *P. pestis*, 85
BCG bacilli
—cellular reaction in mice induced by, 245
BCG bacilli-induced response
—compared with cord factor, 245
Bilayer structure
—in gram-negative lipopolysaccharide, 167
Bordetella pertussis
—immunoglobulin antibodies to, 220
Botulinum toxin
—detection by electroimmunodiffusion, 126
Brucella abortus
—immunoglobulin antibodies to, 220
Brucella antigens
—migration inhibition of mouse macrophages by, 516
Burkitt lymphoma cell lines
—complement-fixing antigens in, 20

Candida albicans
—antigenic structure of, 525
—in germ-free and conventional mice, 731

—influence of antibiotics on, 731
—influence of intestinal bacteria on, 731
canicola
—cross-neutralization of hemolysins from serotype *pomona* and, 154
Carbenicillin
—activity compared with epicillin, 44
—L-forms of *P. aeruginosa* produced with, 60
Cationic polypeptides
—interaction of *Actinomyces* organisms with, 632
Cationic proteins
—of human polymorphonuclear leukocytes, 97
Cell extracts
—of *C. perfringens*, enterotoxin in, 89
Cell growth
—in relation to toxin production, 456
Cell-mediated hypersensitivity
—in rabbits infected with *T. brucei* and *T. rhodesiense*, 674
Cell wall antigens
—of *S. aureus*, immunobiological activity of, 205
Cell wall lipopolysaccharide
—hypersensitivity to, in *Salmonella*-infected mice, 519
Chicken embryo lethal orphan virus
—cytochemical and immunofluorescence study of, 173
Chlamydia trachomatis
—group antigen of, 725
Chlamydiae
—respiratory infection in mice with, 506
Choriomeningitis virus
—effect of actinomycin D on yield of, 511
—in baby hamster kidney cells, 511
Chronic proliferative arthritis
—induced by *M. arthritidis*, 344, 431
Clostridium botulinum
—reduced germination of type A spores of, 232
Clostridium perfringens
—type A enterotoxin of, 89
Clotrimazole
—in vitro antifungal activity of, 143
Coccidioides immitis
—characterization of 3-*O*-methylmannose from, 660
Colchicine
—adjuvant action of, 393
Coliform bacteria
—lactose-fermenting mutants of, 780
Colony-forming cell
—responses in ectromelia virus-infected mice, 323
—responses in pathogenesis of ectromelia virus, 331
Colony-forming cells
—role of hemopoietic, 331
Colymyxin M
—prevention of endotoxin activity, 563
Complement component (fourth)
—specific inactivation of, 12, 446
Complement-dependent release
—of phospholipid from *E. coli*, 23
Complement fixation
—by streptococcal antibody, 441
Complement fixation reaction
—infected spleen antigen in, 528
Complement fixation test
—for demonstration of visna virus antibody response, 715
Complement-fixing antigens
—in Burkitt lymphoma cell lines, 20
Complement inactivation
—effect on complement-dependent immune injuries, 12
Cord factor
—effect on antibody responses in mice injected with, 256
Cord factor-induced response
—compared to BCG bacilli-induced response, 245
Cross-neutralization
—of leptospiral hemolysins, 154
Cross-neutralization tests
—in comparing strains of porcine enteroviruses, 619
Cross-protection
—between species of mycobacteria, 688
—in hamsters immunized with group A arbovirus vaccines, 37
Cross-protective antigens
—of group A streptococci types 3 and 31 and 46 and 51, 79
Culture filtrates
—of *C. perfringens*, enterotoxin in, 89
Cycloleucine
—in study of amino acid changes during infection 556
Cyclophosphamide
—effect on lactic dehydrogenase virus, 720
Cytolysis
—in paramyxovirus infection, 642
Cytomegaloviruses
—neutralizing antibodies to, 368
Cytopathic effects
—of diphtheria toxin, 747
Cytophilic antibody
—altered uptake by macrophages, 402

Delayed hypersensitivity
—cell-free passive transfer of, to chemicals, 575
—in rabbits infected with trypanosomes, 674
Dermatophilus
—pathogenicity of, 29
Dermatophilus congolensis
—streptotrichosis produced in rabbits with, 29
2,4-Dinitrochlorobenzene
—passive transfer of delayed hypersensitivity to, 575
Diplococcus pneumoniae
—amino acid changes during infection with, 556
Diphtheria toxin
—response of interferon-treated cells to, 747
—U.S. standard for Schick test, 295
Diuresis
—effect on *S. aureus* kidney infections, 742

E mutants (*gal*)
—of *S. typhimurium*, 663
Ectromelia virus
—cell responses in pathogenesis of, 331
—response in mice infected with, 323
Electroimmunodiffusion
—detection of type A botulinum toxin by, 126
Electron microscope
—studies of anerobic bacteria, 492

Electron microscopic localization
—of alpha toxin, 650
Electron microscopy
—of group A streptococci, 772
—of infected rabbit testicular tissue, 307
Encephalitis
—in measles virus-infected monkeys, 419
Endotoxicosis
—effect on plasma lactate dehydrogenase isozymes in rats, 468
Endotoxin
—effect on pyruvate kinase activity in mouse liver, 138
—enhanced toxicity of, 550
Endotoxin activity
—prevention by polymyxins and gentamicin, 563
Enterotoxin
—of *C. perfringens* type A, 89
Enterotoxin E
—identification of, 593
Enterotoxins A, B, and C
—production by *S. aureus*, 110
Eperythrozoon coccoides
—effect on interferon response in mice, 425
Epicillin
—experimental chemotherapy, pharmacodynamics, and susceptibility testing, 50
—in vitro laboratory studies, 44
Epimerase-deficient cells
—effect on mouse virulence, 177
—"normal antibody" in clearance of, 177
Eptatretus stoutii
—bactericidal antibody response in, 160
Equine infectious anemia antigen
—characterization of, 528
Erythema potency assay
—for Schick test dose, 295
—studies in the development of, 295
Erythrocytes
—lysed by streptolysin O, 683
Escherichia coli
—complement-dependent release of phospholipid from, 23
—enteropathogenicity of, 473
—lipopolysaccharide from, 452
—physical properties of K antigens of, 6
—resistance to sodium lauryl sulfate in, 287
Escherichia coli cells
—antibiotics with, 550
Escherichia coli endotoxins
—study of, 473
Escherichia coli K-12 galactose genes
—correction of epimerase-deficient cells by, 177
Escherichia coli lac$^-$
—fast lactose fermentation of, 780
Escherichia coli serotypes
—in Yanomama Indians, 753
Estrone
—viral infection-enhancing activity of, 537
Exfoliatin
—as a cause of exfoliation, 541
—production of scalded-skin syndrome by, 541
Experimental chemotherapy
—with epicillin, 50
Extracellular enzymes
—production by *S. aureus*, 110

Ferritin-labeled antibody
—localization of alpha toxin by, 650
Food
—detection of botulinum toxin in, 126
Francisella tularensis
—lactate dehydrogenase in rats infected with, 468
Friend leukemia virus
—effect on immunological maturation of mice, 1
Fungi
—immunizing capacity of, 116

γG antibody
—in *V. cholerae*-infected mice, 589
Galactose genes
—correction of epimerase-deficient cells by *E. coli* K-12, 177
Gas chromatographic comparison
—of 3-*O*-methylmannose from *C. immitis*, 660
Genes
—governing sensitivity to sodium lauryl sulfate, 287
Gentamicin
—in preventing intravascular coagulation and leukopenia, 563
Geodermatophilus
—pathogenicity of, 29
Germination
—of *C. botulinum* type A spores, 232
Glucose levels
—influence on phagocytosis of bacteria by neutrophils, 54
Glucose metabolism
—effects of adrenocorticosteroid on, 315
Glucose oxidation
—in macrophages from BCG-sensitized rabbits, 315
Gram-negative cells
—protective role of smooth lipopolysaccharide layer, 764
Gram-negative lipopolysaccharide
—evidence for bilayer structure in, 167
Gram-negative organisms
—bactericidal response of *E. stoutii* to, 160
Granulomatous disease,
—germination by leukocytes from, 232
Granulomatous response
—induced by BCG bacilli and cord factor, 245
Griseofulvin
—antifungal activity compared with clotrimazole, 143
Group A arbovirus vaccines
—cross-protection in hamsters immunized with, 37
Group A streptococci
—electron microscopy of, 772
Group A streptococci types 3 and 31 and 46 and 51
—cross-protective antigens of, 79
Group B streptococci
—identification by immunofluorescence of, 189
Group B type Ic streptococci
—type-specific antigens of, 596

Haemophilus influenzae type b
—susceptibility in rabbits to, 397
Hamsters
—immunized with group A arbovirus vaccines, 37
Hemagglutination-inhibition test
—for influenza, 508

XUM

Hemagglutinin
—from L-phase of *N. meningitidis* group B, 212
Hemolysin
—separation from *Aeromonas hydrophila* by isoelectric focusing, 503
Hemolysins
—cross-neutralization of, 154
Hemolysis
—of erythrocytes by streptolysin O, 683
Herpesvirus
—of turkeys, 356
—relatedness to Marek's disease virus, 356
Histamine
—capacity of lymphoid tissues to form, 452
Histamine release
—after leukocyte lysate injection, 228
Histoplasma capsulatum
—antigens from the yeast phase of, 116
—intracellular growth in, 605
Histoplasmosis
—lymphocytes-mediated immunity in, 605
Hormones
—effect on interferon, 537
Horse spleen tissue
—anemia antigen from, 528
Human neutrophils
—effect of glucose on phagocytosis of bacteria by, 54
Human polymorphonuclear leukocytes
—distribution of enzymes, proteins, and bactericidal substances of, 97
Human sera
—antibodies to cytomegaloviruses in, 368
Hydrocortisone
—viral infection-enhancing activity of, 537
Hyperbaric oxygen
—inhibition of *P. aeruginosa* by, 470, 488

Immune response
—to sheep red blood cells in mice, 256
Immunobiological activity
—of cell wall antigens of *S. aureus*, 205
Immunofluorescence
—identification of group B streptococci, 189
Immunofluorescence techniques
—for demonstration of visna virus antibody response, 715
Immunogenic preparations
—of *S. typhimurium*, 374, 381
Immunogenicity
—of R factor-carrying *Salmonella*, 274
Immunoglobulin,
—biological properties of purified rabbit, 220
Immunoglobulin antibodies
—to *B. abortus*, 220
—to *B. pertussis*, 220
Immunoglobulins
—action of lipopolysaccharide on uptake of, 402
—interaction with serum factors and phagocytic cells, 462
Immunological maturation
—of mice, 1
Immunopathology
—of *Mycoplasma pneumoniae* disease, 753
Immunosuppression
—in mice by short diet and drug treatments, 240
—in β-3-thienylalanine-treated mice, 240
Influenza virus
—anti-immunoglobulin G hemagglutination-inhibition test for, 508
—inhibition by statolon of, 738
Isoelectric focusing
—purification of two hemolytic proteins by, 503
Interferon
—induced by poly I:C, 407
—response to diphtheria toxin in cells treated with, 747
Interferon inducer
—effects on acute ocular infection, 407
Interferon preparations
—enhancement of phagocytosis by, 581
Interferon production
—effect of *E. coccoides* in mice, 425
—effect of progesterone and testosterone on, 537
Interferon response
—inhibition by statolon, 738
Intestinal loops
—evaluation of, 473
Intrarenal inoculation method
—effect on mice with *S. aureus*, 103

K antigens
—of *E. coli*, 6

L-forms
—of *P. aeruginosa*, 60
L-phase
—of *N. meningitidis*, hemmaglutinin from, 212
L-phase variants
—method for demonstrating killing of, 237
Lactate dehydrogenase isozymes
—effect of infection and endotoxicosis on, 468
Lactic dehydrogenase virus
—effect of cyclophosphamide on, 720
—immune processes in, 720
Lactose-fermenting mutants
—of coliform bacteria, 780
Leptospira
—role of hemolysin in cross-immunity to, 154
Lethal toxicity syndrome
—induced in mice by *M. fermentans*, 678
Leukocyte extracts
—from release of histamine in the dog, 228
Light microscopy
—of wall-defective *S. aureus*, 73
Lipids
—of *M. pneumoniae* and *M. neurolyticum*, 149
Lipopolysaccharide
—action on uptake of immunoglobulins, 402
—effect on erythrocyte membrane stability, 362
—evidence for bilayer structure in, 167
—from *E. coli* in lymphoid tissue, 452
Listeria monocytogenes
—cytotoxicity of rabbit blood for, 703
Lymphocyte changes
—in Marek's disease-infected chickens, 567
Lymphocytes
—in vitro activity with regard to migration and phagocytosis, 697

—induction of resistance by, 337
Lymphocytic choriomeningitis virus
—isolation and behavior of two mutants of, 281
—plaque-type mutants of, 281
Lymphoid tissues
—antibody formation in, 452
—histamine-forming capacity in, 452
—influence of *E. coli* lipopolysaccharide on, 452
Lysosomal enzymes
—activation in rabies-infected tissue culture cells, 546
—of human polymorphonuclear leukocytes, 97
Lysosomes
—in vitro attachment of endotoxins to, 532
—role in rabies-infected tissue culture, 546
Lysozyme
—levels in animals with pyelonephritis, 269

γM antibody
—in *V. cholerae*-infected mice 589,
Macrophage cytophilic antibody
—in mice, 402
Macrophages
—induction of resistance in, 337
—in vitro activity with regard to migration and phagocytosis, 697
—in vitro induction of resistance, 337
—migration inhibition of mouse, 516
Mammalian cell cultures
—study of oncogenic avian adenovirus (CELO) in, 173
Mammalian viruses
—selective inhibition by rifampin, 34
Marek's disease virus
—immunological responsiveness with chickens infected with, 567
—relatedness to herpesvirus, 356
Measles virus
—intracerebral inoculation with, 419
Media exchange method
—for demonstrating killing of L-phase variants, 237
Membrane fractions
—from *Mycoplasma fermentans*, 678
Membrane stability
—effect of alkali-treated lipopolysaccharide on, 362
3-*O*-Methylmannose
—from *C. immitis*, 660
Mice
—cell responses in ectromelia virus-infected, 323
—effect of *E. coccoides* infection in, 425
—effects of intrarenal inoculation of *S. aureus* on, 103
—histological changes in, 245
—immune response in, pretreated with mycobacterial fractions, 256
—immunological maturation of, 1
—infected by *P. aeruginosa*, 462
—respiratory infection of, 506
—serological response to *Mycoplasma arthritidis*, 431
Micro complement fixation assay
—for group A streptococcal antibody, 441
Migration inhibition
—by *Brucella* antigens, 516
—role in cellular immunity in vitro, 697
Mononuclear phagocytes
—inhibition of *H. capsulatum*, 605
Mouse livers
—infected with *S. typhimurium*, 411
—pyruvate kinase activity in, 138
Mouse mononuclear phagocytes
—uptake of carbon particles by, 581
Mouse peritoneal cells
—uptake of immunoglobulins by, 402
Mouse polymorphonuclear leukocytes,
—activity against *P. aeruginosa*, 462
Mutants
—of lymphocytic choriomeningitis virus, 281
Mycobacteria
—acid-fastness of, 513
—antigenic relationship with *M. tuberculosis*, 688
—immunogenicity and cross-protection between species, 688
—UV inactivation and photoreactivation in, 318
Mycobacterial fractions
—cellular reaction in mice induced by, 245
—immune response in mice pretreated with, 256
Mycobacterium avium
—utilization of palmitic acid by, 199
Mycobacterium tuberculosis
—antigenic relationship with atypical mycobacteria, 688
Mycobactin
—use of tuberculostasis in study of, 130
Mycoplasma arthritidis
—arthritis induced by, 344
—arthritis of mice induced by, 431
—response of mice to, 344
Mycoplasma disease
—induced by high doses of *M. fermentans*, 678
Mycoplasma fermentans
—toxic membrane fractions from, 678
Mycoplasma neurolyticum
—occurrence and specificity of lipids in, 149
Mycoplasma pneumoniae
—occurrence and specificity of lipids in, 149
Mycoplasma pneumoniae disease
—immunopathology of, 757
—in lung parenchyma of the Syrian hamster, 757

Neisseria meningitidis
—hemagglutinin from the L-phase of, 212
Neisseria sp.
—attachment to and distribution in human oral cavity, 264
Nonreversion
—of L-forms of *P. aeruginosa*, 60
Normal human serum
—method for demonstrating killing of L-phase variants by, 237
Nystatin
—antifungal activity compared with clotrimazole, 143

Opsonin
—role of a zymosan-adsorbable serum, 709
Oxidation
—influence on acid-fastness of mycobacteria, 513

Pacific hagfish
—bactericidal antibody response in, 160
Palmitic acid
—utilization by *M. avium* of, 199
Panencephalitis
—measles virus isolated from a case of, 419
Paracolobactrum coliforme
—slow lactose fermentation of, 780
Paramyxovirus infection
—antiviral immune cytolysis in, 642
Passive hemagglutination-inhibition test
—for the quantitation of toxin/antigen, 611
Passive hemagglutination test
—in assay of antibodies against visna virus, 715
Passive transfer
—of delayed hypersensitivity to chemicals, 575
Pasteurella pestis
—bacteriophage-infected strain of, 85
—infectivity and virulence of, 416
Pasteurella pestis (PI-C-F)$^-$
—reduced virulence of, 416
Pesticinogenic activity
—absence in *P. pestis*, 416
Phagocytic cells
—interaction with immunoglobulins and serum factors 462
Phagocytosis
—enhancement of, by interferon-containing preparations, 581
—of bacteria by human neutrophils, 54
—of streptococci, 772
—role in cellular immunity in vitro, 697
Pharmacodynamics
—of epicillin, 50
Phenylalanine-free diet
—effect on β-3-thienylalanine-treated mice, 240
Phospholipid
—complement-dependent release from *E. coli*, 23
Photoreactivation
—in mycobacteria, 318
Plague
—phage-infected *P. pestis* isolated from human case of, 85
Plaque-type mutants
—of lymphocytic choriomeningitis virus, 281
cis-Platinum (II) diamminodichloride
—effect on antibody formation, 320
—immunosuppression with, 320
Pneumococcal hemolysin
—purification of, 388
Pneumococcal septicemia
—action of pneumolysin in, 388
Pneumolysin
—purification of, 388
—red cell damage in rabbits due to, 388
Poly I:C
—effects on ocular infection, 407
Polymorphonuclear leukocytes
—from chronic granulomatous disease, 232
—role in reduced germination of *C. botulinum* spores, 232
Polymyxin B
—prevention of endotoxin activity, 563
Polysaccharides
—from trachoma strains, 725
pomona
—cross-neutralization of hemolysins from serotypes *canicola* and, 154
Porcine enteroviruses
—classification of North American, 619
—North American, compared with European and Japanese strains of, 619
Progesterone
—effect on estrone and hydrocortisone activity, 537
—effect on interferon production, 537
Proteus mirabilus
—induction of pyelonephritis in rats with, 269
Pseudomonas aeruginosa
—infection in mice by, 462
—inhibition by hyperbaric oxygen, 479, 488
—L-forms of, 60
Pyelonephritis
—production by *S. aureus*, 742
—renal lysozyme levels in animals developing, 269
—role of inflammatory response in tissue destruction of, 269
Pyrrolnitrin
—antifungal activity compared with clotrimazole, 143
Pyruvate kinase activity
—effected by endotoxin in mouse liver, 138
—in *S. typhimurium*-infected mouse liver, 411

R factor
—immunogenicity of *Salmonella* carrying, 274
Rabbit blood
—listericidal action of, 703
Rabbits
—cell-mediated hypersensitivity in, 674
—*Haemophilus influenzae* type b disease in, 397
Rabies-infected cells
—activation of lysosomal enzymes in, 546
Radioactive endotoxins
—in vitro attachment to lysosomes of, 532
Reduction
—influence on acid-fastness of mycobacteria, 513
Respiratory infection
—of mice with chlamydiae, 506
Reticuloendothelial uptake
—of *S. aureus*, 709
Rifampin
—African swine fever virus replication inhibited by, 34
Rowson-Parr virus
—effect on immunological maturation of mice, 1

Salmonella
—immunogenicity of R factor-carrying, 274
Salmonella endotoxin
—role of hypersensitivity to, 519
Salmonella typhimurium
—cell-mediated resistance induced with, 381
—enzyme activities of mouse livers infected with, 411
—lactate dehydrogenase in rats infected with, 468
—role of smooth lipopolysaccharide in serum resistance, 764
—serum-mediated resistance induced with, 374
—uridinediphosphogalactose-4-epimerase deficiency in, 177

Salmonella typhosa endotoxin
—antibiotics with, for enhanced toxicity for mice, 550
Salmonellosis
—antimicrobial resistance in mouse, 519
—immunity in, 663
Scalded-skin syndrome
—*S. aureus* toxin for, 541
Scanning-beam electron microscopy
—of wall-defective *S. aureus*, 73
Schick test toxin
—activity, assayed by dermal toxicity and lethal tests, 295
—comparison of U.S. standard with the international, 295
Serological cross-reactions
—between lipids of *M. pneumoniae* and *M. neurolyticum*, 149
Serotypes
—of *E. coli* in Yanomama Indians, 753
Serum bactericidal reaction
—role of smooth lipopolysaccharide in, 764
Serum factors
—of *S. aureus*, 709
Serum factors (heat-labile)
—interaction with immunoglobulins and phagocytic cells, 462
Serum inhibitor
—and *N. meningitidis* infection, 212
Serum-soft agar
—growth of *S. epidermidis* strains in, 656
Serum tuberculostasis
—in study of mycobactin, 130
Sheep erythrocytes
—effect of alkali-treated lipopolysaccharide in, 362
—in complement-inactivation studies, 446
Shigella
—resistance to sodium lauryl sulfate in strains of, 287
Simian sera
—antibodies of cytomegaloviruses in, 368
Smooth lipopolysaccharide
—protective role in serum bactericidal reaction, 764
Sodium lauryl sulfate
—conditions controlling sensitivity to, 287
—mechanisms and genetics of resistance to, 287
Specific inactivation
—of fourth complement component, 12
Spleen cells
—effect of *cis*-platinum (II) diamminodichloride on antibody, 320
Staphylococcal alpha toxin
—production of, 456
Staphylococcal cell
—localization of alpha toxin in the, 650
Staphylococcus aureus
—immunobiological activity of cell wall antigens of, 205
—intrarenal inoculation in mice, 103
—production of alpha toxin, 456
—production of enzymes and enterotoxins by, 110
—scanning-beam electron microscopy of wall-defective forms, 73
—serum factors and reticuloendothelial uptake of, 709
Staphylococcus aureus kidney infections
—effect of diuresis on, 742
Staphylococcus aureus toxin
—for scalded-skin syndrome, 541
Staphylococcus epidermidis
—growth in serum-soft agar, 656
Statolon
—inhibition of influenza virus by, 738
—protection of influenza virus-infected mice, 738
Streptococcal antibody (group A)
—micro complement fixation assay for, 441
Streptococcal bacteriocin
—differential action on microbial L-forms, 194
—differential action on mycoplasmas, 194
Streptococcal infections
—role of cross-protective antigens of group A streptococci in, 79
Streptococci
—identification of group B with immunofluorescence, 189
—morphological degradation of, by human monocytes, 772
Streptococcus sanguis
—human feces and dental plaque, 658
Streptolysin O
—characteristics of action, 683
Streptotrichosis
—produced in rabbits, 29
Subacute bacterial endocarditis
—associated with *S. sanguis*, 658
Subacute sclerosing panencephalitis
—inoculation with measles virus from, 419
Sulfonamide activity
—enhancement and reversal, 479
Susceptibility testing
—with epicillin, 50

Testosterone
—effect on estrone and hydrocortisone activity, 537
—effect on interferon production, 537
β-3-Thienylalanine
—effect in mice, 240
—effect on antibody synthesis, 240
Tissue culture
—African swine fever virus replication inhibited by rifampin in, 34
Toxin/antigen elaboration
—in synthetic and complex media, 611
Toxin-induced lysis
—action of streptolysin O in, 683
Toxin production
—in relation to cell growth, 456
Toxoplasma gondii
—effects of poly I:C on infection by, 407
Treponema pallidum
—intracellular location in rabbit testis of, 307
Trypanosoma brucei
—cell-mediated hypersensitivity in rabbits infected with, 674
Tpryanosoma rhodesiense
—cell-mediated hypersensitivity in rabbits infected with, 674

XUM

Tryptophan oxygenase
—activity in *S. typhimurium*-infected mouse liver, 411
Tuberculostasis
—in study of mycobactin, 130
Tuberculous challenge
—ability of mycobacteria to immunize against, 688
Turkey flocks
—infection of herpesvirus in, 356
Turkeys
—epidemiology of a herpesvirus of, 356
Type A botulinum toxin
—detection by electroimmunodiffusion, 126
Type A enterotoxin
—of *C. perfringens*, 89
Type-specific antigens
—of group B type Ic streptococci, 596
Tyrosine aminotransferase
—activity in *S. typhimurium*-infected mouse liver, 411

Ultrastructural changes
—in *P. aeruginosa* after exposure to hyperbaric oxygen, 488
Ultraviolet light inactivation
—inactivation in mycobacteria, 318
Uridine diphosphogalactose-4-epimerase
—deficiency in *S. typhimurium*, 177

Veillonella sp.
—attachment to and distribution in human oral cavity, 264
Vibrio cholerae
—protection of mice against, 589
Vibrio cholerae virulence
—biochemistry of, 611
Visna virus
—antibodies of, 715

Wall-defective *Staphylococcus aureus*
—scanning-beam electron microscopy of, 73

Yanomama Indians
—*E. coli* serotypes in, 753

XUM
